

Old Fashioned BAKER'S DOZEN SALE

(13 to a Dozen)

You don't have to be very old to remember that the term "Baker's Dozen" used to stand for thirteen instead of twelve. You went to your store, bought a dozen of this or that item and received one extra "for good measure." Do you remember? Well, we are reviving this old American custom for the weekend on a goodly number of popular items . . . items that every family can use . . . especially when they can get a "Baker's Dozen" for the price of an ordinary dozen!
