Outplayed and outfought by a determined bunch of Vikings through the two middle periods. the Rooks owed their victory to a sudden burst of hot shooting on the part of Fogle who began laying in the long shots in the second half and the efficiency under the backet of 6 - foot - 6 Bob Riss-

Nile Hilborn and Dr. L. E. Barrick bear the titles of fathers of volleyball in Salem. Hilborn is a real veteran, having played the game for 16 years. He is still rated as one of the best defensive men in the northwest. He used to be a killer but changed over to the set up job after many years in the bloodthirsty role. Even killing gets boresome after a while, we guess. When Hilborn was a kill-er for Salem the saying used to be among other teams, "Stop Salem's number one man and you stop Salem." The saying doesn't work much anymore. You have to stop them all and who wants to, except a volleyball team.

The game of volleyball was invented in 1895, four years after volleyball was also a Massachusetts product, only it came from the Holyoke Y.M.C.A. and a man named William G. Morgan invented it. In those days Y.M.C.A. physical directors weren't worth a hoop and a holler if they didn't invent a game or two every year. Mr. Morgan wanted a gymnasium

It was intended as a game for middle aged men who had to be coaxed out of club windows. The old boys still play the game, as do girls, but it's the young fellows who put the real tornado effect in it. There are
