Reduced Rail Rates, Low Dividend Snuff Out Stocks' Rally

Car Loadings Loss Is Seen

Volume of Trading Is Bit Higher With Average Reduced .2 Point

NEW YORK, Feb. 28.-(AP)-Disappointment in Wall Street over reduced railroad fares and an unexpectedly low dividend by one corporation upset the entire stock market today and dragged back a late rally in industrials.

The second stumble came when carloadings of 586,712 cars, a reduction of 7.1 per cent from the previous week, were reported for the week ended February 22. The drop was more than anticipated for this time of year.

Near the close of the session. Montgomery Ward declared a dividend of 20 cents a common share, the first since August of 1930 when 75 cents was paid Most brokers expected the stock would be put on a \$1 annual ba-

The volume of trading was 2.-473,160 shares, slightly higher than in the previous session, and the Associated Press average of 60 stocks declined .2 of a poin to 61.6. The downturn was soft ened by a rise of one point in the industrial average.

A divisiend of one cent per pound of butterfat is being paid now to shippers of churning cream to the Dairy Cooperative association for the period October 1. 1935, to January 31, members here report.

The butterfat buying program of the co-op, which entered this buying phase here early last November, has bolstered the butterfat market locally and has saved Mohair shippers from one to three cents per pound butterfat over the price quoted before the present buying program went into effect, leaders point out.

Modern factory equipment, increased volume and a good selling agency all contribute to reducing the cost of manufacture below the 31/2 cent buying schedule and permits an additional profit, in form of dividend checks, to the producer who disposes of his butterfat to the cooperative.

Grain Market Rather Mixed

July and September Gain, May Lower Because Canada Quiet

CHICAGO, Feb. 28 .- (AP)-Uneasiness over possibilities of wheat crop damage southwest and west gave firmness to July and September wheat prices today, but May wheat sagged.

Eastern concentrated buying of July wheat lifted that month nearly a cent a bushel at one stage. Need of moisture in parts of doas a drag on May.

Wheat closed unsettled at the same as yesterday's finish to 5/8 child. lower, May \$1.00 1/8 - 1/4. July 91-%, oats 1/8-1/4 down, and provisions varying from 2 cents setback to 10 cents advance. Corn and oats values eased ow-

ing to lack of aggressive demand. Provisions averaged higher, responsive to hog market upturns. Grand Opening Slated
