YOU ARE INVITED
... to experience the glorious thrill which always follows the baking of a light, fluffy, delectable cake when Fisher's Cake Flour is used. Try it and notice how long your cakes remain moist.

Fisher's Cake Flour is milled from choice soft wheats after they have been thoroughly washed, scoured, and sifted through extra fine silk bolting cloth. The following Birthday Cake requires approximately

FIVE CENTS WORTH OF FISHER'S CAKE FLOUR

4 1/2 cups butter
1 cup milk
1 1/2 cups sugar
3/4 teaspoon salt
4 1/2 teaspoons baking powder
5 eggs whites
3 cups Fisher's Cake Flour
1 teaspoon vanilla

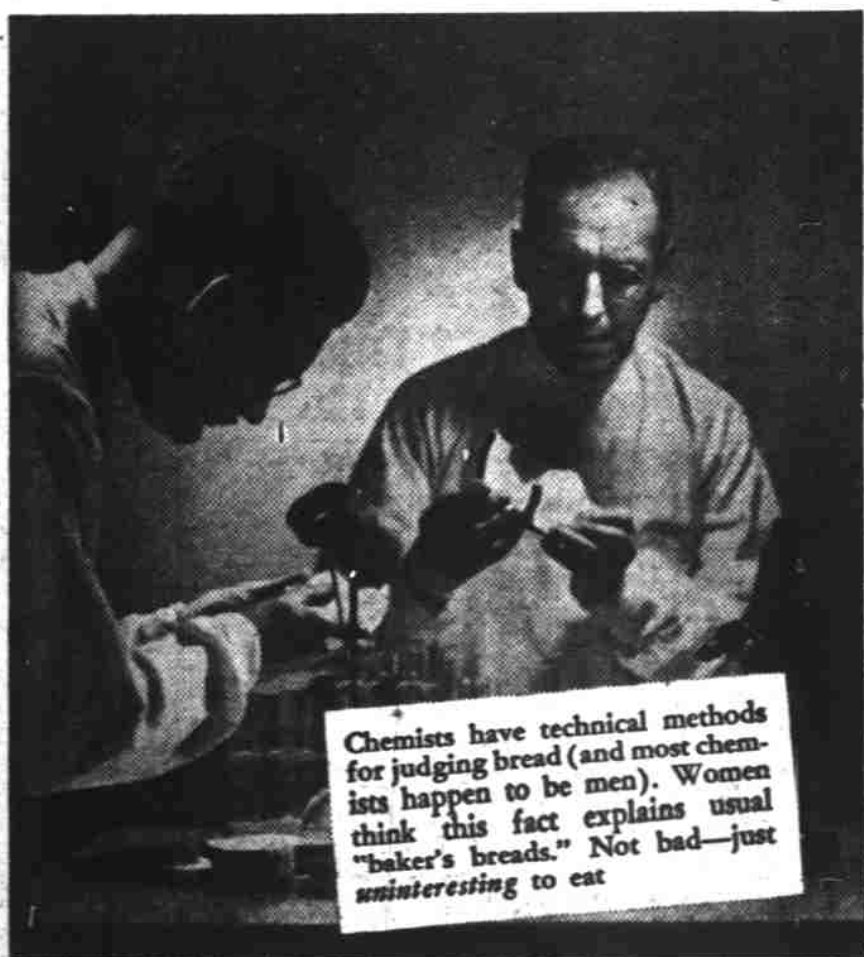

Sift and measure the Cake Flour. Resift with the baking powder. Cream the sugar and shortening thoroughly. Add milk alternately with the dry ingredients. Fold in stiffly beaten egg whites and flavoring. Bake in three layers 25 to 35 minutes at 375 degrees. Frost with boiled frosting.

Men had THEIR CHANCE

—but it took Women to show the West how Appetizing a bread can be!

Chemists have technical methods for judging bread (and most chemists happen to be men). Women think this fact explains usual "baker's breads." Not bad—just uninteresting to eat.

Women were eager to develop a more appetizing bread. Housewives worked with home economists. That's how "woman's recipe" bread was born. That's why this loaf is exciting to taste.

New "woman's recipe" loaf is sensation

BY JULIA LEE WRIGHT
Head of one of the world's largest Home Economics Bureaus

From what people tell me I am sure no bread introduced here in years has gained favor so quickly as this new loaf. Housewives I've talked with are enthusiastic about it (and I've talked with hundreds!)

They say this new bread "eats better" than common store loaves. That it's more delicate and tender. That it makes finer, more delicious toast.

Do you know the reason? Western women developed this new bread. It's a

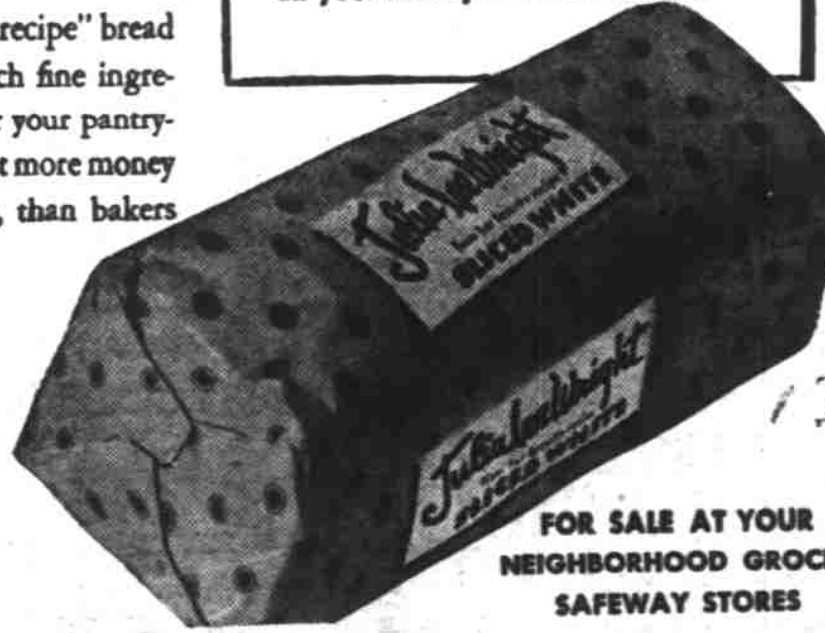

woman's idea of everything that really good bread should be!

Because it is "woman's recipe" bread we naturally use only such fine ingredients as you insist on for your pantry-shelves (this means we put more money into each loaf, I believe, than bakers usually do).

And another nice thing is this. Julia Lee Wright Bread reaches you so tender-soft and fresh that it keeps longer in your bread box. This means welcome economy for housewives!

If you do not agree the new Julia Lee Wright Bread tastes better than the bread you have been getting—all your money will be refunded

BOOKLET—"8 SELECTED PIE RECIPES" FREE AT YOUR GROCERS NOW!

Pies are always popular. Most men prefer a well-made pie to other desserts. This FREE Recipe Book gives you tested and approved recipes for 8 delicious pies—(pumpkin, custard, chiffon, chocolate, lemon meringue, Dutch apple, butterscotch, and banana cream). These are the pies men like.

"Double Rich" in Butter-Fat—Economical Too

By using Alpine Milk with these tested recipes you'll get better results than ever before. Alpine will make your pies rich and creamy, and give them an unusually fine flavor. In fact, if you will use Alpine Milk in all recipes that call for the use of fluid milk, you will find that the flavor and texture of all your dishes will be greatly improved. Alpine Evaporated Milk is economical too, for you can dilute it with equal parts of water for cooking purposes. For tea or coffee use Alpine just as it is—"double rich." Alpine is healthful too, because of its high butter-fat content and the extra amount of Vitamin D created by Irradiation. You'll be more than satisfied with this economical, "all purpose" milk.
