Light Profit-Taking Stops Advance, Stocks Slightly Lower

Flood Damage Figures Again

Bullish Traders Point to Dearth of Trading as Favorable Sign

NEW YORK, March 20—(AP)—The stock market picture today was blotched with light profit-taking.

The list did its best to follow through on the upturn of the previous session, but a little more apprehension was apparent regarding the effects of flood damages on a number of large corporations and selling predominated throughout the day.

At the same time there were few issues that were definitely weak, and scattered stock managed to buck the trend for fairly substantial gains.

Good Sign, Claim

The quietness of both buying and selling gave no especial comfort to the commission houses, but bullish proponents saw in the smallness of the turnover an indication that leading stocks were still in good hands.

Transfers totalled only 1,895,930 shares against yesterday's rather small aggregate of 2,036,730. The Associated Press average of 60 issues slipped .2 of a point to 62.2. The rail composite was off .4,that of the utilities declined .3 while the industrial index was unchanged.

Wool Market Is Distinctly Dull

BOSTON, March 20—(AP)—The Commercial Bulletin will say tomorrow:

"The wool market is distinctly dull. Sales have been chiefly in foreign wools at prices which show little change.

"Manufacturers are finding new business slow and specification against old orders are delayed for the time being. Not a few mills are shut down on account of flood conditions, although no serious losses to plants are reported.

"Foreign markets are very firm and if anything rather against the buyers.

"In the west, there is scattered buying in a small way at slightly lower prices.

"Mohair is quiet but very firm."

The Bulletin will publish the following quotations:

Scoured basis:

Oregon: Fine and F. M. staple 90-91; fine and F. M. clothing 83-85.

Mohair: Oregon, 55-57.

(Foreign prices in bond).

Berry Plants to Be Scarce, Word

All available strawberry plants will be set out this spring, with the demand then far from filled, believes S. H. Van Trump, county fruit inspector, who has received a number of inquiries as to where strawberry plants may be purchased.

Because persons who have grown the plants for sale have not received much encouragement on market conditions in recent years, there is apparently a shortage of plants this year.

Van Trump estimated that the October freeze took about a 10 per cent toll of the peach blossoms

There is no doubt that the walnut crop was considerably damaged, and that a light crop is in prospect for this fall. The prune tree shave been damaged to no appreciable extent, in Van Trump's opinion.

Crop Loans to Be Made Soon

Applications Coming Now to County Agent Here, Committee States

Applications for emergency crop loans for 1936 are now being received at the county agent's office in the postoffice building here by County Agent Harry L. Riches, according to an announcement by the local emergency crop loan committee, consisting of Roy Melson, S. H. Van Trump, and D. W. Eyre.

The emergency crop loans will be made only to farmers who cannot obtain credit from any other source, as provided by regulations issued by the governor of the Farm Credit administration. The money loaned will be limited to the farmer's immediate and actual cash needs for growing his 1936 crops and in no instance may exceed $200 to one farmer.

Farmers are not eligible for emergency loans if they can borrow from an individual, production credit association, bank, or other concern. Farmers will also be considered ineligible if they have an application pending with the resettlement administration, have received assistance from that organization this year or are indebted to the resettlement administration for an unpaid loan.

As in the past, the security for an emergency crop loan will consist of a first lien on the crop financed. Landlord or others having an interest in the crop to be financed will be required to waive their claims in favor of a lien to the governor of the Farm Credit administration until the emergency crop loan is paid.

Checks in payment of approved loans will be issued by the Regional Crop and Feed Loan office at Spokane.

Meeting Is Today For Logan Groups

WOODBURN, March 20. — A meeting of loganberry growers of Woodburn district will be held in the city hall Saturday at 2 p. m. All loganberry growers including independent growers and members of the Woodburn Fruit Growers Cooperative association are asked to attend to consider proposed price control plan which has been prepared under the cooperative laws of the state.

O. L. Davis, president, announced that there should be from 75 to 80 per cent of the loganberry acreage signed up in this area making it possible with a good signup in the rest of the state to call a public meeting of logan growers to elect directors.

Logan Plan Gets Support, Liberty

LIBERTY, March 20.—A large crowd of loganberry growers from this and adjacent districts assembled here Thursday night. Provisions of the marketing agreement were carefully explained and everyone readily signed. Much enthusiasm was evident and hopes are high for the success of the new plan.

Any local grower who has not yet signed and wishes to do so may obtain blanks from Frank Hrubetz or W. H. Walker here.

So far nearly all acreage in this and neirby vicinity has been signed up.

Redmond Excited At Spud Outlook

PORTLAND, March 20.—(AP)—Butter, butterfat and eggs were unchanged.

Firm demand continued for lightweight Leghorn hens with record price maintained.

Advance of ½c lb. followed good demand for country killed calves.

Onion tone was weak with sales to retailers $1 or a fraction higher.

Redmond appeared the chiefly excited point for old potatoes with suggestion of recent purchase of 25 cars by one broken and 10 cars by a chain organization. Undertone of the local trade is just steady.

Whales Evidently Bidding For Fame

ASTORIA, Ore., March 19.—(AP)—Speculation was rife here today as to whether two small whales are planning a bid for fame. They were seen cavorting in the mouth of the Columbia river.

The three could become famous by emulating "Ethelbert," the whale which hove into Willamette slough near Portland and was shot; "Mrs. Finnegan," the sealion who plowed her way to the middle of a grain field near Canby, or the octopus taken from the Metolius river last week.

Bureau of Mining Urged by Martin

EUGENE, Ore., March 19.—(AP)—Governor Charles Martin issued a strong appeal for creation of a state bureau of mining and geology today in his opening address at the Oregon commonwealth conference.

"The first objectives of such a bureau should be practical aid to miners and prospectors, particularly small p ers," the governor said. He asked support for a legislative measure calling for a mining bureau.

The governor said Bonneville dam will make available abundant power suited to metallurgical and chemical operations and that information regarding suitable localities for such operations is needed.

He said the proposed bureau's greatest value would be in authoritatively listing areas yielding economically valuable minerals.

The governor's talk was the first of the three-day commonwealth conference program.

Health Examinations To Be Held March 31 At Jefferson School

JEFFERSON, March 20 — The annual school health examinations are slated for March 31, at 9 a.m. in the high school. First graders, new pupils, and any special cases are eligible for these examinations, which will be conducted by Dr. V. A. Douglas. Vaccination will be given for smallpox, as well as one-dose administrations of toxoid for diphtheria. Tuberculin skin tests will also be given to any child in school without charge.

All high school students will be required to take tuberculin tests unless they bring written excuses from their parents or show that they have had the test recently.
