

Soil Conservation Plan Explained in Meeting at Silverton

Fifty Farmers Hear Speakers

Regulations Are Outlined by County Agent and College Official

SILVERTON, April 20.—Over 50 farmers attended the first Marion county federal soil conservation program held at the Silverton Armory Monday afternoon. Considerable interest was displayed in the new farm program which is taking the place of the unconstitutional AAA. Almost all of those in attendance registered, and many remained at the adjournment of the meeting to discuss their individual problems.

An executive committee was elected to consist of Oscar Johnson, chairman; Otto Dahl, vice chairman; E. O. Nelson as third member and Jim Bonner as alternate. This group will represent the North Silverton, Scotts Mills and Porter voting precincts. Other local committees will be elected at subsequent meetings.

Large Sum Possible

Harry Riches, Marion county agent, explained that if all those eligible in Marion county took advantage of the program, there would be over \$200,000 distributed in the county. But all won't come in this year, he said, because many farmers have already made their plans for the year.

There will be no contracts to sign in this, Mr. Riches explained. If the farmers comply, they are paid; if not, they do not receive payment. Also there will be no processing tax as the government has already appropriated the funds needed. A compliance inspection will be made in the autumn.

William Teutsch, assistant county agent, explained the plan briefly as:

Farmers are to be paid for carrying out long-established good-farming practices. In order to get the maximum amount of payment No. 1, 15 per cent of soil-depleting crops must be shifted to soil-conservation crops. The figures are based on soil-depleting crops harvested in 1935. Those listed as soil depleting crops in Marion county are: Corn of all kinds, Irish potatoes, commercial truck crops, canning crops such as melons and strawberries, small grains, annual grasses such as sudan grass, millet, sprink planted peas and beans when harvested for hay or seed, hops, bulbs, orchards. The conservation crops include alfalfa and any clover, perennial grasses, winter cover crops when turned under, and vetch and peas.

Average \$10 Acre

Payment, Mr. Teutsch explained, will be based on production. The average maximum payment in the United States will likely be \$10 an acre. Mr. Teutsch was of the opinion that the payment would be slightly higher in Marion county.

An additional small payment, perhaps a dollar an acre, will be made if the 15 per cent is seeded into soil building crops, which for Marion county includes fall planted vetch, peas, crimson clover, all turned under; spring planted sweet red clover, white, Ladino clovers, and alfalfa; spring planted peas and beans turned under.

In answer to questions of the listeners, Mr. Teutsch explained that according to the knowledge they had at hand now, a farmer would qualify for the No. 2 payment plan, that for the soil building practice, if he had planted fall clover in 1935, not knowing of the plan, and turns it under when it had reached its maximum height.

If he seeds a conservation or soil building crop in fall of 1936 or summer fallow or land on which no other crop has been taken that year, he will qualify for payment plan No. 1.

(Continued from page 1)

present net revenues of our plant," O'Hara added.

"Small retorted that 'the whole idea of this well proposal is to hold up the entire program in the hope that certain groups can get what they want,' which, he intimated, might be water from either the Little North fork or the Willamette river.

"What we need here is a distribution system and not a big reservoir and a source of supply from the North Santiam river," Alderman Williams said in defense of his committee's report. "I was elected on a well platform because we have two good wells free from contamination in north Salem."

The pending proposal to construct an infiltration gallery as a water intake on an island in the North Santiam river would mean draining creeping matter from the mountainsides, and also, he putrid matter to get in the water," Williams averred.

Williams' committee summarized its survey of well systems at Shelton, Olympia and Tacoma, Wash., as follows:

1. By installing a well water system, a heavy indebtedness for pipe line will be avoided.
2. Heavy engineering expenses will be avoided.
3. Filtration system will be avoided.
4. No necessity for a large reservoir.
5. Chlorination will not be necessary.
6. There will be no reason for water to become stagnant or unpalatable by reason of impounding.
7. There will be no danger of interruption, owing to a break in the pipe line, and therefore, no reason for an auxiliary pipe line.
8. Hence good and sufficient grounds for lowering rates at least 25 per cent to the consumer of the system."

Complete text of the resolution on gambling:

"In as much as our great nation's government was founded upon Christian principles, and in as much as everything that is anti-Christian is un-American, and in as much as gambling, drinking, vice and all other sorts of lawlessness and criminal tendencies can only be eradicated and abolished through and by Christian citizenship; be it resolved:

"That we do hereby declare that both the state and the religious teachers and leaders do all in their power to create a better citizenship and to instill in the hearts of our people a sense of citizenship. And, that public opinion in each locality being unopposed to curb and put out of business such vices that are destroying the virtues, manhood and good citizenship of our people, both old and young."

"Be it further stated, that we recognize the peril that threatens our entire social and political structure through the growth of gambling in Oregon. We give to the movement for an amendment to the constitution prohibiting gambling and the licensing of gambling in the state. We urge every citizen to take an active part in the circulation of initiative petitions and cooperate in all efforts to educate the citizenship of our state in this matter. And, be it further stated, that we appreciate and endorse the efforts of the attorney-general's department in cleaning up vice and crime.

We also appreciate and endorse the fine work of the legislative representatives of the committee on public morals. And, we recognize the fact, that the only way to make a clean and honest people into a clean and honest people is to vote clean and honest people into office."

Mary E. Siegmund Dies of Influenza

Mrs. Mary Emma Hewlett Siegmund, 32, daughter of County Commissioner and Mrs. Leroy Hewlett, died of influenza, at her residence, 515 North Summer street, early yesterday morning, following an attack of influenza. She had been ill only since Saturday.

She was a graduate of Salem high school and the Oregon Normal school at Monmouth. Recently she had signed a contract to teach in the Turner school next year. She had spent most of her life in Salem, having come here from the middlewest at the age of 10 years.

The former wife of Floyd Siegmund, she was at one time an employee of the Capital Journal business office.

She is survived by her parents, Mr. and Mrs. Leroy Hewlett, and two children, John Leroy Siegmund and Catherine Irene Siegmund.

Funeral arrangements will be made later by the W. T. Rigdon company.

Chapman Hits at County Chairman

PORTLAND, Ore., April 20.—(AP)—C. C. Chapman, republican candidate for state representative, accused the chairman of the Multnomah county republican central committee today with attempting a dictatorship by offering a 19-point program for candidates either to accept or reject.

The bulletin, over the signature of Chairman Ed R. Campbell, did not give the candidates the right to say which of the 19 points they favored, Chapman said.

"It proposes to inflict the obsolete ward system on Portland for election of legislators, a step back into politics which were notorious for corruption," Chapman protested against "Chairman Campbell's attempt to dictate in the name of the republican county central committee.

Baptists at Albany Greet New Pastor, Rev. Junker

ALBANY, April 20.—Members and friends of the Baptist church tendered Rev. E. A. Junker and family a reception at the church Friday, Rev. and Mrs. Junker and their family arrived in Albany last week from Trinidad, Colo., and the new pastor preached his first sermon here Sunday. He served as pastor of the Baptist church three years and was pastor of the Pottersville, Calif., church for five years previously.

Attack Denied By Getzinger

Salem Man Arrested For Alleged Attack Upon W. Salem Teacher

(Continued from page 1)

got a jug of beer. The unknown man borrowed his car, he said, later returning it. He said he was wearing a gray coat the night in question, the coat being at Corvallis Sunday. Officers went for the coat, as a gray button was found at the scene of the attack.

Mrs. Getzinger, when questioned by officers, said her husband returned home last Wednesday night without a coat, though he had had one on earlier in the evening, and that when she found he was home, he was preparing to wash a pair of overalls, giving as his reason the desire to wear a clean pair to work the next morning. Mrs. Getzinger also said that on Easter Sunday Getzinger had tried to attack her mother, Mrs. Harriet Barker, and that upon her escape he threatened to kill her, and actually did, through a floor and into the window.

Theodore Nelson Asks Full Probe

(Continued from page 1)

hit Nelson in Oregon to split the votes in an effort to prevent Sam Brown from taking him (McNary) to a cleaning."

The district attorney said last night that he would present the entire matter to the grand jury within a reasonable time. He said the jury could not be called together at once because one member was not able to attend.

Nelson said in his letter that if he were guilty of the charge made, "I would be punishable under section 26-243 which makes it unlawful for any person to become a candidate for nomination or election for the purpose of defeating the nomination or election of another person."

Urged to Enter

By Townsend Board

"I was urged to enter this race by the Townsend area board, I did so reluctantly. I have had experience in public life; my record is an open book which the people of this state can examine. I am willing to pit my experience against the opposing candidate for the liberal votes.

"This campaign doesn't begin to be as warm as those in which I have taken part. But it is unfair to my supporters to let the impression get around that the hope of any subterfuge to my candidacy. When the grand jury has made its report I'll then determine what other action I shall take."

Nelson said support for his campaign was developing rapidly. In a few days he expects to go to eastern Oregon and to work there for some time.

Nelson has been attacked by friends of Sam Brown, Gervais farmer, as a self-starter. Subsequent to the Townsend area board's endorsement of Nelson and other members of a Townsend slate, the action was retracted and Townsend club members were warned that they should not participate in the primary campaign.

MANY NEVER SUSPECT CAUSE OF BACKACHES
 This Old Treatment Often Brings Happy Relief Of Pain
 Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are one of Nature's chief organs of taking the acids and waste out of the blood. If they don't pass 2 pints a day and so get rid of more than 2 pounds of waste matter by means of urine, the acids may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.
 Ask your druggist for Donn's Pills—used successfully by millions for over 40 years. They give happy relief and will help flush out the 15 miles of kidney tubes.

Afternoon, 1:30, devotional, Mrs. Grant Dyer of Spokane; 1:45, reports of president, Mrs. D. D. Smith, Portland, and district secretaries; 2:30, address, Miss Jolee; 2:10, solo, Mrs. Harry H. Harms, Salem; 3:20, address, Dr. Mable; 4, conference by district secretaries; 6, banquet in church.

Night, 8 o'clock, praise service led by Mrs. Fred Toozee, jr., Salem; music, Calvary church choir; 8:30, address, "The World's Greatest Need," Miss McKay; 9:15, benediction, Rev. Weniger.

Blue army forces Sunday successfully overcame the attack of "red" forces in maneuvers held at the airport with 200 reserve officers taking part in the attack and defense, under direction of Colonel Carl Abrams, Company B of the 162nd infantry, took part in the maneuvers, there by setting a precedent for the national guard has not heretofore participated in "contact" camp maneuvers with the reserve officers.

Nine airplanes from Pearson field took part in the attack and defense and delighted a crowd estimated at 10,900 with their signaling work and their daring dives on combat troops. Troops in turn defended themselves by shooting blank bullets at the attacking planes which skimmed the ground at not more than 50 feet elevation after taking power dives from 55 to 100 feet elevations.

Salem onlookers came to the airport in cars which parked along the Turner road and the edge of the field while the sham battle was conducted.

Employers Must Register, Stated

Tax Collection Will Begin Next Month; Complete Records Desired

The state unemployment compensation commission yesterday again urged all Oregon employers of four or more workers to register at once with the commission in anticipation of the tax collection program which is to begin early in May. The first collections will be on payroll for January to April, inclusive, and will constitute a charge of nine-tenths of one per cent on the aggregate moneys paid as wages in salaries in that period. Salaries of executive officers will be included in the payments.

The commission has not yet completed the report form on which employers will make their tax remittances. At first it was planned to make these reports coincide with forms furnished by the social security board at Washington but delay in securing the reports of the latter has forced the commission here to go ahead with the printing of its own tax report forms. Blanks will be ready for distribution to employers shortly.

Each employer must report promptly to the board when an employee terminates his service, either through discharge or by his own volition. On the termination reports will be a statement of the number of weeks worked, the wage paid each week and other data dealing with the employee's relation to the business whose employment he is quitting. The termination reports will be filed at the commission's headquarters with the file which is built up on each employee and by 1938 will furnish the basis for the payment of unemployment insurance benefits.

Warrant Debt of District Now Low

The Salem school district's warrant indebtedness dropped to the lowest point since last November when \$18,956.21 worth of warrants were called in for collection yesterday by the school clerk, W. H. Burghardt. This call left the district with \$15,148.55 outstanding in warrants marked "unpaid for lack of funds."

The warrants called yesterday were those bearing numbers 14-574 to 14-823, inclusive. They drew \$55.91 interest.

Teachers' salaries were still being paid on a nine-months basis, the district late last summer was able to reach a cash basis but resumption of salary payments in the fall had by November forced a return to the warrant system. This year teachers are being paid on a 12-months basis.

Murphy Awarded Incinerator Task

City Council Last Night Accepted the lone Bid of John F. Murphy, Portland Contractor, to Repair the City Incinerator. Murphy Offered to Build a New, Semi-Circular Brick Arch in the Retort Chamber for \$1325.

(Continued from page 1)

This will be the second major repair job necessitated at the incinerator plant since it was built about six years ago.

Completion of the water filtration which was abandoned soon after construction was started by the Oregon-Washington Water Service company in 1930 was proposed to the city council last night by Harold P. Gray, engineer who designed the filter system for the company. He suggested that while the plant had not been located ideally the city might effect a saving by completing it. His proposal was referred to the special water construction committee.

That the Gray suggestion would not be taken up appeared likely because plans have been made to cover the old concrete work of the unfinished filter with soil being excavated on the new Fairmount hill reservoir site.

Old Filter Plant Completion Asked

Completion of the water filtration which was abandoned soon after construction was started by the Oregon-Washington Water Service company in 1930 was proposed to the city council last night by Harold P.
