

Rapid Progress Made on Reconstruction of Gym at Lebanon

Framework Is In Place Now

Strawberry Fair, Grange Convention in June to Use Edifice

LEBANON, April 24.—Due to fair weather and good organization, rapid progress is being made on the Lebanon high school gymnasium under the supervision of Contractor Swain of Corvallis.

All of the cleaning up has been completed and most of the framework is in place. Rubbish was found to be nearly two feet deep over all the floor.

Almost all of the under floor was found to be intact as were the walls and the basement which is being considered as in the first building destroyed by fire. June 1 has been set for the completion of the second gym. First floor will again be used for interior finish. At present about 25 men are employed on the job. Many say this is the fastest job of rebuilding they have yet seen.

Covered by insurance. All of the rebuilding cost is being covered by insurance. Two new doors will be added, one at each end of the front hall way.

It will be completed in time for the Strawberry fair and State Grange convention which is to be held here sometime in June. It will also be used for graduation exercises.

Curtains for the new gymnasium already have been ordered and will be exactly like the old. The athletic supply room will again be located there as will be the Future Farmers' workshop.
