Campaign For McNary Begun

Complacency of Friends Due to His Strong Record, Peril

ness men in Portland and upstate who have dealt with him in business there and found him sound and conservative. Burke has tried to get some free advertising by an attack on Governor Martin and the capitol program but the governor and Holman have astutely avoided replying to Burke and his attack has been a dud.
Allen and Burt Ace Staging Hot Race
Jack Allen and U. S. Burt are in a hot race for the democratic nomination for state treasurer. Verne Williams, who edits the Oregon Democrat, has forsaken the traditional neutrality of a partisan house organ during a primary campaign, and is beating the tom-tom for Allen. The latter got his taste of state politics when he served in the state senate from 1922 to 1924, and his experience with his short-lived experience as liquor administrator will win him the nomination.
Behind Burt is the Gosselin Young Democratic organization with the governor tacitly supporting Burt. Although taking no part in the contest, Burt has been high in the administration councils since Governor Martin took office. It was Burt's support which won Senator T. White his job as state director of agriculture.
Burt foresees victory for himself as the primary because of his connections made throughout the state with the Young Democrats and his extension work for Oregon State college—from whose faculty he is now on temporary leave. In the fall campaign he expects to win the nomination with the aid of his supporters. However, unless Allen or Burt show more force than thus far exhibited, either one would run far behind Holman. The latter has gained political strength rapidly since he took his board of control disturbances which won so many voters disgusted with him two years ago.

Maintenance Cost To Be Low, Claim

(Continued from page 2)
as compared with one from the open river may be taken as \$200,000. As a charge against this saving the island supply will require about three-quarters of a mile of additional pipe line, a river crossing (which is not difficult or hazardous), a special regulating chamber and perhaps 2,000 feet of water collecting pipes. Lands and rights of way would probably not materially affect relative costs but in the end the city might be put to unanticipated expense and certainly there would be some ill feeling developed toward Salem if open river diversions were made.
Considering all phases of the problem as it affects cost, we would place the topmost figure of possible cost of the island development at \$150,000 as an offset to the \$200,000 saving mentioned above. We would expect the island source to show much more saving than these figures would indicate but at this stage of study and plans it is felt that a very liberal allowance should be made for the island work and the relative merits of the two supplies should be considered on the basis of quality of water and generating cost rather than upon development cost.

In Djibouti, French Somaliland, it was reported the Ethiopian royal family was expected there Sunday morning. Foreigners in the Ethiopian capital sought shelter at legations, especially that of Great Britain, which is fairly well protected. The state department in Washington understood there were 53 Americans in the city, and Engert reported some of them had informed him they were safe. Sir Sidney Barton, the British minister, informed his government 3,000 foreigners had taken refuge at his legation.

File Work Sheet, Farmers Advised

Every individual who is to qualify for receiving a grant of money under the new agricultural conservation program must fill out a work sheet, announced Harry L. Richey, county agricultural agent. Filing of a work sheet implies no obligation. While a farmer may not be able to qualify in this year's program, yet it later may develop that a work sheet would enable him to do so.
payment of approximately \$10 per acre will be made to those farmers who sell 15 per cent of their soil depleting crops grown in 1935 to soil conserving crops in 1936.
A small additional payment of approximately \$1 per acre will be made to those farmers who follow a soil building practice in 1936.
A series of meetings will be held beginning tomorrow, May 4, at which farmers may receive assistance in filling out their work sheets.
Tomorrow farmers from the Salem, Maclean, Pringle, Liberty, Croston, Riverview, Salem Heights territory may receive help from 9:30 a. m. to 5 p. m. at the county agent's office.

Approximately \$47,000 will be distributed as the first portion of the 1936 distribution of the two-mill elementary school fund tax.

Flight of Gold Is Bothering France

PARIS, May 2.—(AP)—The flow of gold from France has injected new anxieties into the French jigsaw puzzle of politics which voters will piece together tomorrow with un-off election for the chamber of deputies.
Bankers said anxiety was already shown in the steady flow of gold abroad from the Bank of France, while French hoarders had ceased buying gold because they were afraid the metal might be requisitioned, as in the United States.
The total amount of gold withdrawn from the Bank of France in the last five weeks has amounted in value to \$247,358.000.

Outlet for Oregon Lumber Broadens

The Oregon state planning board reported Saturday that "conspicuous gains" in the sale of northwest lumber were made in the north Atlantic and New England states, which are buying three-eighths of their lumber from Oregon and Washington.
The report saw an excellent opportunity for northwest lumber in North and South Dakota, Nebraska, Iowa and Kansas and said the supply to this area from the Pacific northwest had increased.
"Greater than normal demand will be created if and when farm incomes justify more than a subsistence existence," the report said.
The upward trend also was noted in foreign distribution.

Dow, himself held in "technical custody" at the American consulate, said his companion was Cecil W. McCollum, jailed for Spokane authorities because of "money trouble."
Sheriff Chris P. Fox of El Paso county was more explicit. He said the man had been arrested by Frank Buckley of Spokane to bring McCollum back to Washington to face a grand larceny charge in a case of alleged embezzlement.

The requirements for the new old age assistance plan.
Expenditures of all types for direct relief and old age pensions last month amounted to approximately \$14,500, Glenn C. Niles, relief committee secretary, pointed out.
New Applicants' Checks Delayed
The county relief committee plans to meet and approve new applications for old age assistance as rapidly as possible but no new applicants will receive checks until early in June. The state relief committee will accept requisitions for old age assistance, for both new and old cases, but once monthly, Niles said.
Marion county's old age assistance list is expected to contain more than 500 names when the June payments are issued.
This month's relief fund allotment consists of \$9273 for general care of the poor, \$450 for the poor farm, \$250 for the soldiers and sailors aid fund and \$27 for the mothers aid fund.

Zioncheck Caught But Isn't Wanted

SHALLOTTE, N. C., May 2.—(AP)—A North Carolina sheriff who heard, by radio, that Representative Zioncheck was wanted in Virginia for bond jumping, went out and got him in today in his car. Sheriff J. A. Russ had to drive more than 70 miles an hour, he said, to overtake him.
Then he called authorities at Alexandria, Va., to whom Zioncheck had given the disregarded \$200 bond after arrest for reckless driving and disorderly conduct.
They didn't want Zioncheck—not enough to send here for him anyway.
Zioncheck, and his bride of four days, the former Bruce Nix of Texarkana, Tex., went on their honeymoon way—driving slowly in Zioncheck's rakish roadster—until he didn't come off second best in an exchange with Mrs. Russ, a deputy sheriff.
"I don't want any publicity," he told her and got this rejoinder: "Looks to me like you fish for it with a mighty big hook."

Herman E. Laffy Republican Candidate for District Attorney

Dear Voters: As candidate for the office of District Attorney, I have more matters I wish to present for your consideration: My family settled in Salem in 1905, and from that time to the present, we have paid, in real property taxes, over \$50,000.00 in Marion county. The tax burden practically confiscated all of our family resources. My father, the late F. J. Laffy, rendered some 25 years of distinguished service to this community.
I have never been on the public payroll of Marion county, nor have any of the members of my family.
We have been during all these years, patriotic, law-abiding, god-fearing citizens. We have rendered public service in time of war, and in time of peace.
What money is being spent in this campaign is not coming from the public treasury, nor from any political machine, clique, or gang. I am making my own campaign, and NO ONE will dictate to me how the office of DISTRICT ATTORNEY shall be operated.
Please compare the respective records of my opponents in these particulars. If you are interested primarily in GOOD ECONOMICAL GOVERNMENT — FEARLESS LAW ENFORCEMENT FREE FROM POLITICS and the ABOLISHMENT OF INVISIBLE GOVERNMENT in Marion county then I feel that I am entitled to your vote for the office of District Attorney.
Yours very truly,
HERMAN E. LAFFY
