**It's hard to persuade Pontiac owners that any car could be more economical**

ALMOST without exception, motorists who buy Pontiacs notice a sharp drop in driving costs. It is days longer between stops for gas, weeks longer between stops for oil. And they go for months without adjustments or repairs. So it didn't surprise owners when Pontiac won first place in the Yosemite Valley Economy Run\*—averaging 23.9 miles per gallon (no oil added), under American Automobile Association supervision, to defeat all entrants in its class. It simply made official what they knew before—you can't do better for all-around economy.

Remember that when you buy a car. Over and above its smart distinction... its wealth of modern features... and its smooth, lively performance, Pontiac offers savings that are nothing less than phenomenal! It asks no odds of any car—not even for economy!
