COFFEY ANSWERS CRITIC To the Editor:

In answer to Clyde Livingston's letter published in the Capital Journal on May 14th, 1936 regarding his setting up and operating a drink stand at the circus grounds May 9th, 1936, I wish to state that under ordinary circumstances, I would not bother to notice such comments as were published, especially when considering the source of the information. I feel, however, that as there is always two sides to every question, it is only fair that all of the facts be published instead of just the jumble of remarks of a disgruntled person who is sore because he could not get away with a violation of a city ordinance.

On the morning of May 9th, I was instructed to notify the persons who operated the stand in question that they were on city property and that they could not operate there without the consent of the city council. The stand was set up on a piece of property at about 15th and Madison Sts., on which one of the city water wells is located.

I contacted Carol Wright who told me that he was the owner of the stand. He had been loaned it to Clyde Livingston. I informed Mr. Livingston that he was on city property and that he could not operate there as the city council were the only ones who could give the necessary permission for the use of city property. Mr. Livingston asked me what a license would cost and I told him that I thought that it would be \$35.00 per day (referring to concession license, which later found to be only \$25.00 per day.) Mr. Livingston said O. K. so I returned to town.

I was called again at about 12 o'clock noon and was informed that the stand had not been moved from the city property and I was instructed to return to the stand and inform them that they could not operate on the said lot and to tell them to move immediately or we would have to move them. I informed Mr. Livingston that he would have until 12:30 to move his stand or have it moved. One of Mr. Livingston's helpers got all het up and remarked "Oh, wise guy, you can't do that to us." I got out of my car and told them that if that was the way they felt about it I would remove the stand right then. Mr. Livingston spoke up quickly and said, "It's O. K. Coffey, that fellow hasn't got anything to do with it, but I will take it down right away." Officer Nicholson was present at the time and overheard all of this conversation. I am not surprised that the Capital Journal printing Mr. Livingston's letter without investigating the matter as it is in line with the way they conduct their gambling investigation. I am under indictment on just the same sort of a few crooks, bootleggers, moonshiners, ex convicts and what have you who saw an opportunity to "get even" for their past misfortunes.

The Capital Journal and the public generally are going to be a lot wiser when the trial is over and there are certain reporters who are going to have a lot of explaining to do before very long. As for Mr. Livingston wanting to know how long "that bird Coffey" is going to be kept on the police force, my thought is that for the first time I make a slip or in any way show that I am not capable and give any cause for dismissal I am sure that my chief and the civil service board will act accordingly.

Those whose own skirts are not clean should be a bit more cautious in their remarks and accusations for without competent evidence and definite proof they may find themselves in an extremely embarrassing position.

If this letter does not explain things to Mr. Livingston I can make it a lot plainer.

You remember what Mark Twain said ...
 ... he said there were only two times when he wasn't smoking... one was when he was eating and one was when he was sleeping.

Yes... there's a lot of satisfaction in smoking ... and it's true that tobacco has never been used in purer milder form than it is today in Chesterfield Cigarettes.

Chesterfield
 ... and it's a corking good cigarette
