Wheat Rockets as Traders Fear Squeeze on May Deliveries

Active Buying By Mills Aids

15 Million Bushels to Be Settled For in Next 5 Days, Foreseen

CHICAGO, May 20.—(AP)—Wheat shot skyward 3¼ cents a bushel today, responsive to fears of a squeeze in prices and to reports of active buying for mills.

The fears of a price squeeze related to month-end adjustment of Chicago May wheat contracts, in which about 15,000,000 bushels remain to be settled for in the next five days, with supplies here relatively inadequate. Reports of enlarged purchases for mills were in reference to new crop wheat futures, July and September, and appeared to be based on less favorable reports of field conditions both for domestic spring and winter wheat.

Special anxiety as to the crop outlook was aroused by advices of widespread dust storms affecting six states and extending from Idaho to Kansas.

Close is Nervous

Wheat closed nervous at some reaction from the day's top but ⅞-2⅞ cents above yesterday's finish, May 95-95⅛, July 86⅛-¼, September 85⅛-⅝, corn unchanged to ¼ higher, May 63½-⅝, July 60½-⅝, September 58½, oats unchanged to ¼ off, July 25⅝, and rye at ⅛ decline to ⅛ advance, July 54⅜. In provisions, the result varied from 12 cents setback to a rise of 5 cents.

Flurried bidding for May wheat broke out in the last hour after the market had temporarily declined a major fraction.

Decided impetus for the advance of wheat values came after posting of the first delivery notices in Chicago this month. These notices revealed that only 140,000 bushels were to be tendered tomorrow on May contracts here.

A rise of 15 cents a barrel in wholesale flour prices accompanied today's jump of wheat.

Modest Advance Made by Stocks

Watchful Waiting Is Seen as Volume Continues Light on Street

NEW YORK, May 20.—(AP)—Encouraged by continued favorable business news and the fact that selling had dried up, professional traders bid shares up fractions to a point or more in modest trading today.

The mildness of demand reflected what brokers termed continued "watchful waiting."

Measured by the Associated Press average of 60 shares, the stock market advanced .5 of a point to 59.6. Transactions totaled 686,080 shares compared with 908,510 Tuesday.

While declaration of the quarterly dividend of $2.25 a share by American Telephone was taken in market quarters as a matter of course it was counted a factor in the stock's rise of 1⅛ to 160.

Issues up fractions to a point or so at the close included U. S. Steel at 56⅝, Union Pacific at 125, and New York Central at 34⅜.

John-Manville was down 1¼ at 92, while fractions were given up by United Corp. at 6 and United Aircraft at 22.

Pringle School to Hold

Soil Program Changes Made

All Orchards Included in Plan; Control of Weeds Will Be Created

Notice of two major changes in the agricultural conservation program of importance to Marion county farmers has been received by Harry L. Riches, county agent, who is in charge of the program locally. One change concerns the classification of orchards; the other involves the inclusion of perennial noxious weed control in the program.

Under the new ruling, all orchards are included in the program according to their classification either as soil conserving, soil depleting or neutral. Formerly only orchards planted since 1930 were allowed.

For the controlling of noxious weeds an allowance of $10 an acre will be made where chemical treatment is used and $5 an acre when control by cultivation is sought. Principal weeds coming under the status of noxious weeds are Canada thistles and morning glory.

Riches announced that 500 work sheets for the conservation had been filled out with additional ones being filed daily. A time work sheets has not yet been announced.

First Auction of Wool Set June 4

PORTLAND, Ore., May 20.—(AP)—Approximately 500,000 pounds of wool will be offered at the first wool auction of the season in eastern Oregon June 4, traders predicted today.

The E. J. Burke & Co. of Portland purchased the Smythe clip of around 200,000 pounds at Pendleton, the largest clip produced in Oregon, and the Ben Taylor clip of around 100,000 pounds at Condon.

While figures on the Smythe clip were not made public, traders figured it was around 20 cents a pound with shrinkage of perhaps 74 per cent, compared with the general offerings of around 23 to 25 cents for other eastern Oregon wools with normal shrinkage of around 67 per cent.

Movement of wool was on the increase.
