YOU KNOW THE OLD SAYIN—

Liv'n Learn. If you don't sure as shootn yer gona get yerself ina mess like we did at Eric Kay's Golf Klub onced. We were out there one day picken up some aliby's from no lesser experts than Custer Ross, Robin Day, Bing Page and Hiney Compton; they havin the reputation of being the most offishent in that line. After listenin to Custer tellin the other boys he'd had 63 on the first six holes if he hadenda put a coupla balls in the water hole and as we were kinda saunter up the number nine fairway nonshelontly (drat that word we hadta call Sy Gaiser to spellit for us) tryin to kid the boys into believin our fourth drive was rite up the ole alley insteada way over to the rite ina klumpa Brush where we'd moren likely not find it and hafta quit the game like Billy Walton did. Billy was out playin one day when

he hit a ball way off thirty or forty feet from him. Not bein able to find it after lookin a coupla hours or so Billy says Boys the jigs up. I'm quittin. There's a ten cent ball lost on the only good drive I've had all day. Nosir, not just to be another Bobby Jones am I gona loose a dime ball like that. Doggonit he says, do you know how much interest a dime'd be on. No we allwed we didn't seein as how he'd always done the figurein when there was any interest been figured. So after Billy threw his shinnie stick away (figurin to learn the game before buyin golf clubs so he said) we sauntered on up the failway when all of a sudden we were ingulfed in a shadder covern most half the fairway. Knowin there was'ent any clouds big enough to make a shadder like that we turns to onea the boys and says, well we

see Fred Williams is out again. Boy says Hiney you've laid yourself lible. That's not Fred Williams making that shadder, that's TAD SHELTON and you're shore in amess. Both those gyies'el be on ye. My gosh we says, isn't there some way we can git outa this. Yeah, says Hiney, buy me a coupla dozen six-hit balls and I'll not tell on ye. OK we says if we can get out of a mess like this for that little were gettin off easy. Both those guys think we're afraid of em, but of course we aint (well not much). HO HUM, now we can rest easier as TAD or FRED neither one can read or rite so we'll git busy on quoten some prices that'el bring folks to these two Markets from the fore Korners of the KUMPU. Here they are, the prices we mean not Tad and Fred.

We've searched the markets over and over for a flour we could sell at a low price and at the same time retain a high standard of quality. It's easy to buy a cheap brand of flour, not so easy to buy a good brand cheap. But here's the exception—
