

European and Oriental Clouds Worry Wall Street Traders

Congress and Also Awaited

Recess Plan Is Disturbing Factor; Average For List Unchanged

NEW YORK, June 5.—(AP)—The stock market took a little nourishment here and there today, but on the whole, it displayed an indifferent appetite for recovery proffered.

Analysts were inclined to attribute the lackluster performance of the equities list to nervousness over the cloudy foreign situation. The recess of congress next week, with the consequent prolongation of the tax controversy and other debated legislation, also was pointed to as a restrictive influence.

The day's indefinite price trends were exemplified by the Associated Press average of 60 stocks which closed unchanged at 60.5. Only 53,850 shares were transferred against 766,890 yesterday.

Strikes in France fiscal structure with the possibility of franc devaluation imminent and prospects of war in the far east, kept the financial community in a state of perplexity that precluded any undue expansion of speculative and investment commitments. The banking of France continued to lose gold and the French franc slipped a peg.

Rail stocks paid little attention to the official freight car loadings figures for last week which disclosed a less than seasonal decline in shipments.

North Dakota Reports Rain

Wheat Prices Moderately Lower as Result of Spring Crop Aid

CHICAGO, June 5.—(AP)—Dashes of rain in North Dakota, the principal spring wheat state and likewise the one suffering most from drought, gave wheat prices moderate setbacks today.

Wheat closed easy, 3/4-1 1/2 under yesterday's finish, July 85-85 1/2, Sept. 85 1/2-86, Dec. 87 1/2-88, corn 1 1/2-1 3/4 down, July 60 1/2-70, Sept. 57 1/2-57 3/4, Dec. 52 1/4. Oats 5 1/4-5 1/2, July 24 1/2, and rye unchanged to 1/2 lower, July 5 1/2. In provisions, the result was unchanged to 10 cents decline.

Lowest prices of the day for what came near the end. This was simultaneous with reports of rain at points around Fargo and Devil's Lake, North Dakota. September displayed the most weakness, and touched 85 1/2 cents, a fall of 1 1/2 cents from the day's high.

Corn, oats and rye averaged easier with wheat. Liberal receipts had a weakening effect on the corn market. Shipping demand for oats was slow. In contrast, there was an active shipping call for rye.

Provisions sagged slightly, following grains rather than hog values.

Wool Prices Hold Firm On Moderate Turnover

BOSTON, June 5.—(U. S. Dept. Agr.)—Prices were firm in the Boston market on a rather moderate turnover of fine territory wools. Average to good French combing lines of 64s and finer territory wools in original bags brought mostly around 84-86 cents a weakening effect on the market. Shipping demand for wools was slow. In contrast, there was an active shipping call for rye.

Provisions sagged slightly, following grains rather than hog values.
