Money

Tow DOES the practical house-I wife measure the value of her telephone? Keeping track, she finds that

it saves money for her budget. It performs errands without outlays for personal visits.

It saves frequent "dressing to go out."

When plumber, furnace man or other expert is needed promptly, it reaches him at once and saves costly damage

to property. It enables her to make appointments at the hairdresser's or elsewhere, saving her the cost of useless trips.

These are ordinary experiences. If you have no telephone, may we tell you more about its place in your home? We are at your service.

James Oliver Curwood's
