Dairy Cattle Are Shipped to South

Dairy cows to replenish the herd of a San Francisgo dairyman were shipped from Salem Thursday night. While only one carload annual account of Karle E. Wen- went it is expected that additional cars will be shipped as the California dairymen claim that they can buy the cattle cheaper here than they can raise them in liam E. Nafziger, executor, and the congested areas in the south.

A feature of the shipment was the fact that not a one of the young helfers among the 28 head shipped showed any reaction to either tuberculosis or Bangs disease. At one time there was a prevalence of the Bangs disease but through cooperation with the federal government both diseases have been practically eradicated. It is this fact that makes the California dairymen desirous of replenishing their herds with Oregon grown milk cows.

Delinquent Taxes Paid Rapidly Now

Bonus Credited For Part of Increase; Regular Turnovers Are Made

All monies collected by the Marion county tax department to July 1 have been turned over to the county treasurer, with the last turnover, June 30, including \$54,-044.16 on the 1936 tax rolls, Deputy Tax Collector T. J. Brabec said yesterday.

Delinquent tax collections came in for a decided boost during this week, which increase Brabec believes is due largely to the distribution of bonus money. One veteran turned more than \$400 of his bonus money into the tax department to pay taxes dating back to 1929 and 1930.

Turnovers Frequent The tax office has been making turnovers to the county treasurer virtually every two weeks since the first of this year, and to July 1 had collected 59 per cent of the current tax since the rolls were turned over March 15. This heavy percentage of collections on the 1936 rolls has been recorded in spite of the fact that the last two quarters payments are not due until September 15 and December

Total collections on the 1936 roll reach almost a million dollars, or \$955,848.64, while the total of all collections since January 1 of this year is \$1,383,363 .-57. The tax monies taken in since the first of the year on all rolls come within \$237,332.43 of reaching the \$1,620,696 total of the 1936 assessment.
