Motors, Industrials, Some Utilities Lead Climb; Average Now 64.0

NEW YORK, July 3-(A)-Stocks put on some pyrotechnics today on the eve of the Independence day recess. Many issues advanced 1 to 3 points under leadership of motors, industrial specialties and utility preferreds.

Excellent behavior of selected groups was mirrored in the firm tone of the general list, but buying was not aggressive and activity only fair.

Sales totaled 1,020,180 shares compared with 1,072,640 Thursday. The Associated Press average of 60 stocks advanced .4 of a point to 64.0, less than a point from the top 1935 figure of 64.8 made April 13.

There were a few conspicuously soft spots. Union Pacific lost a point at 127% in light trading.

Let-Down Occurs In Wool Activity

BOSTON, July 3 .- (AP)-The commercial bulletin will say to-

"There is a further let-down in the activity in wool. Prices are generally well maintained but there is some disposition especfally on the part of some growers in the west to ease a bit. The holiday and mid-year inventories tend to slow up business.

Canadian Crop Harm Limited

New Gain at Chicago Soon Wiped Out; Corn Lifts **But News Bearish**

CHICAGO, July 3-(AP)-In a late outburst of buying, wheat today reached new peak prices for the season, almost 2 cents up, but heavy profit-taking canceled

A sudden bulge amounting to nearly 5 cents a bushel at Winnipeg rallied the Chicago wheat market temporarily 3 1/2 cents from preceding setbacks. Then at the last, however, Chicago prices dipped again in turbulent trading. despite anxiety manifest over reports of acutely increased need of rain to relieve drought dangers in Canada where forecasts pointed to hot weather perils.

Wheat closed irregular, 1 cent lower to cent higher compared with yesterday's finish, July 1.00 %-1.01, Sept. 1.01 %-%, Dec. 1.021/2-%; corn 1% down to 1/4 up, July 72 %, Sept. 71 %-%, Dec. 66 1/4 - 1/4 , oats 1/2 - 1/8 off, Sept. 34 1/4 - 1/4, and rye showing 1 1/4 to 11/2 decline, Sept. 68. The result in provisions was changed to 7

Crop estimates here as to Canada's 1936 pring wheat yield averaged 343,000,000 bushels, and were also a disappointment to bulls, indicating less severe losses than recently had been suggested.

Corn as well as wheat temporarily outdid previous top price records of the season. Today's corn crop estimates, however averaging 2,383,000,000 bushels, were generally looked upon as bearish. Oats, rye and provisions markets lacked aggressive support.
