

Time Leaders Set Pace as Stocks Gallop to New Highs

Good Earnings Are Predicted

Second Quarter Business Reports Encouraging; Rain Also Bullish

NEW YORK, July 14.—(AP)—Old time leaders set the advancing pace in today's stock market and many issues went into new high territory for the past five years with gains of fractions to 3 or more points.

The continuing bright tone of business and industrial news, coupled with earnings forecasts for the second quarter that indicated the best profits in some instances since the depression, helped to provide motivating power for the list as a whole.

Continental, German and home trade buyers were active. Withdrawals were infrequent but a few lots were unsold owing to the firm limits.

BOSTON, July 14.—(AP)—(U. S. Dept. Agr.)—The undertone of the wool market in Boston was fairly firm despite the fact that many buyers are bidding lower and occasionally were getting small lots of wool at prices lower than the generally quoted market.

Corn Drops As Rain Forecast

General Downpour Needed to Save It; Trend of All Grains Same

CHICAGO, July 14.—(AP)—In a spectacular race, with the nation's corn crop at stake, moisture relief prospects today appeared to be winning, and corn prices fell 3 cents.

Corn specialists said the race was between rain and heat, and that without quick rains the crop losses in corn would be inordinately large, but that if rains come a fair portion of the crop can be saved. It was asserted, however, that nothing short of general downpours would correct the corn situation as a whole.

Corn closed shaky 1 1/2-2 1/2 cents under yesterday's finish, July 12, Sept. 73 1/2-80 1/2, Dec. 74 1/2-80 1/2, wheat 1 1/2-1 3/4 off, July 12, Sept. \$1.02 1/2-1 1/4, Dec. \$1.03 1/2-1 1/4, and oats 1 1/4-1 1/2 down, Sept. 37 1/2, with rice at 1 1/4 setback, Sept. 69¢.

The previous results was 20 to 25 cent drop.

It was current in some quarters that unofficial estimates of only 225,000,000 bushels probable yield of wheat in Canada this season may yet shrink to 200,000,000.

Oats chiefly followed wheat. Ate trailed after corn.

Provisions fell with grain values and with hogs.
