### Resolution on Chiefs Beaten

**No Endorsements to Be Made on Presidency, Decision Reached**

(Continued from Page 1)

entangled debate until finally the whole resolution was tabled.

Tomorrow's session at which Rep. William Lemke, the new union party candidate for president, will speak, ends the convention.

The socialist presidential candidate's speech came just after the convention had been stirred into a whooping, purse opening frenzy of enthusiasm by a display of unanimity among the leaders of the movement and a series of appeals by Gerald L. K. Smith and Gomer Smith. The Smiths, who have been at odds, asked the delegates to rally behind Dr. Townsend in defending a suit brought by Dr. A. A. Wright of Cleveland, a former Townsend director demanding an accounting of funds and the ousting of Townsend.

Thousands of dollars had been collected in cash and pledges before the day ended. Hundreds of delegates pushed their way to the platform, opening bill folds, battered pocketbooks and untying money from handkerchief corners.

The day saw too, the adoption of a series of resolutions, which took the convention on record as: **Congressional Probe Soundly Condemned**

Condemning the congressional committee which recently investigated Dr. Townsend.

Declaring that partisan political speeches made before the convention represented only the views of the speakers.

Resolved not "at any time during the campaign, directly or indirectly endorse any presidential or vice-presidential candidate.

In Chicago today, Lemke said, "That doesn't hurt my candidacy a bit," when informed of the convention resolution against presidential endorsements. "The resolution doesn't say anything about individuals."

He interpreted the resolution to mean "that those few democratic candidates who feel they can serve two masters will now continue to straddle."

Six democratic Townsendites joined tonight in a statement in which they said they would support the Roosevelt program and the democratic platform except the social security program. On this phase they said they would strongly urge the Townsend plan.

They were: Otto Case, Washington state treasurer; Sheridan Downey, California; Willis Mahoney, democratic candidate for U. S. senate in Oregon; Rep. Martin Smith (D-Wash); Dempster O. Potts, democratic candidate for U. S. senate in Kansas; Nathan Roberts, southern organizer for the Townsend plan.

**Prune Producers' Future Is Bright**

(Continued from page 1)

shortage over the entire nation, local canners are reported to be selling canned prunes futures at 90 to 95 cents a dozen cans. This is a lower price than was received last year when there was a general surplus, not only of prunes but of other fruits.

**Profit Expected**

The price at which the futures are being sold will yield between \$8 and \$9 a ton to the grower. Prune men estimate that exclusive of taxes and interest on their investment it costs at least \$5 a ton to cultivate and harvest their crop. Prices of \$12 to \$15 a ton are considered as giving a reasonable return to the producers. Highest price ever paid for the prunes here was \$28 a ton.

The Marion and Polk county crop of prunes is showing up well at the present time, in Yamhill county the yield is spotted with some orchards reported to be complete failures. Indications are that the local crop will grade higher than for several years which should give a better return to the dried prune growers.

"We'll have to wait till the delegates return to find out about it," he replied in answer to a request for his opinion of the reports of convention differences which arose between Gomer Smith, Oklahoma, and Dr. Townsend. "The newspapers are making the worst of it."

W. F. Neptune, who received Townsend support in his recent successful race for a position on the school board, had not paid much attention to the national convention, he said. He didn't, however, "think a third party endorsement would do any good."

NOW BEAUTIFY THE FORD V-8

Today's Ford V-8 introduces a new scale of motoring luxury to the low-price field. Recent refinements on ALL Ford cars... with and without de luxe equipment... give new evidence of quality that has always existed beneath the surface.

The new interiors recall the richness and beauty you have often seen and envied in cars of higher price.

On de luxe models, instrument panel and window moldings are finished in a satiny new walnut grain... upholstery treatment is smarter, more luxurious... steering wheel is of a new type... wheel bands are chromium-plated... tandem windshield wipers give better visibility in bad weather...

and the rear-view mirror includes a dependable clock.

Cars without de luxe equipment now have new floor carpeting, new cash tray, new chrome-finish fittings, new mahogany-grain instrument panel and window moldings, and your choice of Bedford Cord or mohair upholstery.

And with this new luxury comes new economy. A new-type carburetor steps up gasoline mileage to a new all-time V-8 record.

See these smart new Fords at your dealer's. You'll find them easy on the eyes... and on the pocketbook too.
