

Profits Made in First Half Year

Industrial Gain Is Steady Survey Reveals; Auto Earnings Highest

NEW YORK, July 29.—(AP)—The busy trip-hammers of heavy industries, shaping metals to a thousand uses in America's plants and factories, at the same time were pounding out increasing heaps of dollars for shareholders in the first half of 1936, a survey today showed.

With 155 corporations revealing the contents of their account books to date, including many of the largest in the country, the widest gains over the initial six months last year are being shown by those concerns which manufacture primarily to supply materials and machinery for other industries, or durable goods such as homes and factories.

Where the Associated Press compilation of the 155-total indicated a gain in profits for the half-year of 61 per cent over the same 1935 period, the steel industry, for example, with 10 reporting companies registered an aggregate profit gain of 445 per cent.

Total Gain Smaller Dollar-wise the improvement is moderate, with the total \$4,436,970 ahead of last year, but the percentage change serves to emphasize the sharp reversal of the situation from a time when many concerns were showing losses.

Building equipment companies, of which seven have reported, had a dollar profit increase of approximately the same amount as the steels. In percentages the lift was less, 105 per cent, but still good enough to give this division second place in the rise.

Automobiles, more rapidly worn out by consumers, have been the outstanding profit-makers in terms of dollars, with a margin of over \$100,000,000 above the year before. On a percentage basis, however, their rank is fifth with a 71 per cent rise for the 3 concerns reporting, which included two first-rank producers.

Slayer of Six Is Denied New Trial

OLYMPIA, Wash., July 29.—(AP)—Leo Hall, convicted in the Erland's Point mass slaughter case, looked to Gov. Clarence D. Martin with little hope for rescue from hanging, after the state supreme court yesterday denied him a rehearing of his appeal from a first degree murder conviction.

Hall said he had little hope the governor will act on his behalf and that he will "take it standing up," if he must hang.

Although accused of slaying six men and women in a robbery at Erland's Point, Kitsap county, Hall was tried and convicted of but one of the deaths, that of Eugene Chenevert.

The date for his execution probably will be determined by the Kitsap county trial court within 30 to 60 days.

Fifteen Drown As Sand Barge Sinks

CHICAGO, July 29.—(AP)—A wind squall sent a big sand barge to the bottom of Lake Michigan today with her captain and 14 of her crew.

The snubnose boat, "Motor shipment material service," lurched suddenly to port and sank like a stone in the darkness of early morning a mile off the south Chicago lighthouse.

The craft went down in the choppy waves so fast there was no time to man the lifeboats.

Most of the crew was trapped asleep in bunks below decks.

Those who were awakened by the sudden plunge jumped from bed and fought for places at the ladders leading to the decks.

Seven men survived the whirling vortex of the wreck, after being sucked down with the ship. They were rescued by coast-guardsmen called from the lighthouse.

Ingalls to Speak At Kansas Picnic

Claude E. Ingalls, well known editor of the Corvallis Gazette-Times, born and raised in Kansas, will address the Kansas State Society of Oregon at its annual picnic being held Sunday, August 2, at Jantzen Beach park.

Mr. Ingalls will talk on the history of the state of Kansas with regard to its position and value to the United States, and will also speak of the valor and achievements of the many Kansans who have come before the public eye at the present time and in days gone by.

The picnic held by the Kansas State Society of Oregon is always a large and outstanding one and usually attended by approximately three thousand former Kansans and friends.

President-elect R. A. Pond has announced that an interesting program has been arranged and many humorous contests will be

Two Recent W. U. Grads Will Teach

Two 1935 graduates of Willamette university received teaching positions this week through the appointment bureau conducted at the university by Miss Pearl Swanson.

Nell Marie Perrine, who has been studying for the past year at Southern Oregon Normal, was elected to teach English and direct girls' athletics in the high school at Colton. She was an English major and lives in Ashland. Edna Danford will teach English in the Umatilla high school during the coming year. She, also an English major and an Ashland girl, has been teaching English and commerce at Rogue River.

Selective Naval Recruiting Opens

WASHINGTON, July 29.—(AP)—To man 23 new fighting ships scheduled for completion this year, the navy has started a selective recruiting drive for 10,000 sailors to boost its total enlisted strength to 100,000 men.

Congress authorized an increase in man-power to the 100,000 figure to be reached by July 1 next year. Navy officers said today that, despite friendly competition from the army and civilian conservation corps, more men were applying for navy enlistment than could be accepted.
