Immense European Buying in Canada Sends Wheat Upward Anew

World Supply Much Reduced

Little Remaining in Any of Surplus-Producing Nations, Believed

CHICAGO, July 29. - (AP) - Immense European purchase from Canada, five to seven million bushels, with big speculative buying here, ran the Chicago wheat market 3 % cents upward today.

Except in Canada, reports today indicated, little wheat is remaining for sale in surplus-producing countries, and fear was expressed that Canada this season may not raise even 200,000,000 bushels, the yield being cut more than half from what was looked for a short time ago. Leading trade specialists said tonight the world's wheat position has changed from one of plenty to one of possible scarcity, and the outlook for the growing crop is decidedly below par almost everywhere. Season High Set

Adding to speculative buying fervor in the wheat pit, was the fact that Liverpool quotations closed today at new top records for the season, a feat accomplished now three successive days, and corn, hogs and provisions were hitting high prices heretofore unreached not only during 1936 but in some cases as far back as six

Wheat in Chicago closed nervous, 21/4-2% cents above yesterday's finish, Sept. 108%-%, Dec. 109%-1/2, May 110%-%; corn 2%-3 cent up, Sept. 93%-94%, Dec. 86%-%, May 87%; pats 114-1% advanced, Sept. 38-%-%, and rye showing %-1% bulge, Sept. 76%. In provisions, the result was 20 to 30 cents Rye, oats and barley prices

mounted with those of other Provisions reflected recordbreaking upturns of hog values.

Selling Brings **Share Decline**

News Still Bright; Belief **Correction Due Causes** Unloading Trend

NEW YORK, July 29-(AP)-Pro-fit-takers concentrated their fire or steels and motors today and with the exception of favored specialties, many recent stock market leaders joined the casualty list for declines of 1 to 2 or more points.

The news on the whole was still constructive marketwise and financial analysts were inclined to attribute much of the day's selling pressure to so-called professionals who decided that a technical correction was overdue in view of the lengthy advance.

The Associated Press average of 60 stocks lost .6 to a point at 68, equalling the largest single day's reversal since June 25. Transfers totaled 1,947.880 shares against 1,903,470 the day before. Steel Chief Loser

Among the principal losers were U. S. steel common, off 2% points at 64%, and the preferred of 2% at 129%; Bethlehem, off 2% at 55 1/2; Chrysler, off 2 1-8 at 120 1-8; Generals Motors, off 1% at 70; Western Union, off 2% at 88%; Westinghouse, off 1% at 138%; American Can, off 11/2 at 132; N. Y. Central, off 1% at 39%; Great Northern, off 1% at 39 1/2; J. I. Case, off 1 at 166; and Du Pont, off 21/4 at 165. A demand developed for aviations and alcohols.

Drouth Proves Partial Blessing

Although the drouth has taken a toll of hundreds of millions of dollars, it has been of beneficial aspect in the respect that valuable mineral deposits have been revealed in numerous lakes in North Dakota which were dried up by the searing sun. Sodium sulphate deposits found in the northwestern part of the state promise to rival in value the extensive mineral deposits in Death Valley where the heat makes mining an arduous affair It may be that this new industry, to which the government is diverting farm labor ordinarily employed in the wheat fields, will in time take its place along with agriculture as one of North Dakota's important commercial activities.
