

Building Program Has 365 at Work

On PWA Jobs in and Near Salem, Announcement of Engineer Here

The public works building program in progress in and near Salem is now giving employment to 365 men, according to statistics given out yesterday at the office of T. W. Baker, resident engineer-inspector. Baker recently succeeded P. J. Simpson in that position.

The senior high school project continues to lead the van with a crew of 168 men now at work. Next in order are the Bush grade school, 51; the state hospital ward building, 45; Leslie junior high school additions and state tuberculosis hospital addition and nurses home, 44 each, and state blind school dormitory, 13.

The blind school unit is 95 per cent complete, it was estimated, while at the other extreme is the tuberculosis hospital project, 19 per cent done. A third story is being added to the main tuberculosis building and a separate unit, the nurses' home, is being constructed with brick salvaged from the old capitol building.

Percentage of completion of the other projects is as follows: State hospital ward building, 75; Leslie additions, 70; Bush school, 65, and senior high, 46 1/2.

America to Hold Spain to Account

WASHINGTON, Aug. 6.—(P)—Spain's revolt-threatened popular front government was served formal notice by the United States today that it will be held strictly accountable for the protection of American property in that country.

Disturbed over the potential menace to America's \$75,000,000 investment in that country, the state department disclosed it had dispatched a note to Madrid invoking the aid of Spanish authorities in safeguarding American property and warning that compensation must be paid for any damages.

The language of the note, some observers predicted, foreshadowed a probably early claim against the Spanish government for the recent seizure of the Ford Motor company and General Motors corporation plants at Barcelona.

Big Bill Thompson to Run; Union Party Man

CHICAGO, Aug. 6.—(P)—William Hale "Big Bill" Thompson, former mayor of Chicago and a leading republican vote-getter in many a city campaign, announced his candidacy for the governorship of Illinois on the union party ticket.

Robertson Gets Second in Class

PORTLAND, Aug. 6.—(P)—Entrants from California, Washington and Oregon shared top honors in the five divisions run off today at the opening of the sixth annual Pacific international trapshoot.

Class A: Frank Troeh, Portland, 197 (high score for day). Class B: J. J. Schilke, Newport, Wash., tied with C. G. Robertson, Salem, Ore., with 195 birds each. Schilke winning in the shootoff with 25 straight to Robertson's 23.

Labor's Situation Declared Serious

WASHINGTON, Aug. 6.—(P)—Fear of a prolonged civil war in labor ranks over the conditional order of the American Federation of Labor executive council suspending ten member unions was evidenced today by a dispute between rival leaders over the immediate effect of the action.

While war talk was soft pedaled, William Green, president of the federation, took issue with a committee for industrial organization estimated that suspension of the unions would split a "substantial majority" of central labor bodies.

About 1000 of these central bodies, each representing all the local unions in a community—are scattered throughout the country. Regarded by labor men as extremely important, they handle all local issues.

Excavation Offers To Be Asked Soon

(Continued from page 1)

Some seven feet to the first or basement floor level. The driveway will be 18 feet wide. Space between the driveway and the east and west wings will be landscaped, with very small parking spots for official cars. A marquee on each side of the south wing will afford a protected walk from the driveway to the building entrance. Grass and plantings will be employed up to the building, and there will be plenty of light in the offices on the south side of the basement floor.

The detailed plans and specifications are being drawn in New York and will be ready by September 15 or shortly thereafter. They will then be checked by PWA engineers and when approved, the job will be ready for a call for bids.

Truck, Planking Afire

City firemen yesterday answered calls to put out fire in railway track planking and in a truck. The planking blaze, between the Oregon Electric tracks at High and Division, at 12:50 p. m. caused slight damage. Firemen said the truck blaze, at 2:05 p. m., was put out by the owner of the vehicle.

Anti-New Dealers Gather in Detroit

Policy in Opposition to F. R. Will Be Drafted; Reed Is Outspoken

DETROIT, Aug. 6.—(P)—A group of men once high in the councils of the democratic party gathered here tonight for the avowed purpose of determining the most effective method of opposing the reelection of President Roosevelt.

From preliminary discussions, two courses of action—the establishment of an anti-new deal democratic ticket and an effort to swing democratic votes to Governor Landon—emerged to be given prominence by Sterling E. Edmunds, St. Louis attorney who called the meeting for Friday.

Former Senator Reed, among the early arrivals, was reluctant to discuss the meeting. Asked for his definition of the purpose of the gathering, Reed shot back: "I know what I want to do. I want to do what I can to preserve the constitution and the independence of the courts and stop wasting the people's substance."

Easy Money Will Still Be Policy

WASHINGTON, Aug. 6.—(P)—A continuation of what the federal reserve board described as its "easy money policy" in spite of a forthcoming 50 per cent increase in member banks' reserve requirements was announced today in the federal reserve bulletin.

Saying member banks still will have nearly \$2,000,000,000 of excess reserve funds, the board said "is not a reversal of the easy money policy pursued by the system since the beginning of the depression."

Money conditions have continued easy since the announcement of the increased reserve requirements last month, the board added.

Townsend's Followers Advised Non-Partisan Course Taken by Chief

CHICAGO, Aug. 6.—(P)—Dr. Francis E. Townsend, founder of the old age revolving pension plan, issued a statement today calling upon his followers to pursue a non-partisan course in the coming presidential campaign.

The Townsend organization, he said, is not a political party and has endorsed no party.

Banks Recorder Dies

FOREST GROVE, Aug. 6.—(P)—W. T. Sellers, 71, city recorder of Banks and for many years a figure in politics of northwestern Oregon, died last night after a several weeks' illness. The widow, five sons, a sister and two brothers survive.

Leo Lomski Wins

DALLAS, Texas, Aug. 6.—(P)—Leo Lomski, erstwhile Aberdeen assassin, slashed out a close but clear cut decision over Jack Peiric, lumbering young heavy weight giant from San Francisco in ten rounds here tonight.

Film Propaganda Bureau Is Set Up

WASHINGTON, Aug. 6.—(P)—The republican national committee said tonight that "a moving picture propaganda bureau" had been established in the works progress administration, and a contract made with Pathé News to produce films until next July at a cost of \$4,250 for each 500 feet.

Under the contract, the statesman said, the film organization agreed to release "one news reel story on the subject of WPA activities each month" through a national news reel.

Drought to Mean Increased Taxes

CHICAGO, Aug. 6.—(P)—Rising taxes were predicted tonight by Ernest Hahne, Northwestern university economist, as a probable result of the drought.

Basing his forecast on the economic effects of dry spells of 1934 and previous years, Hahne said the country could expect:

1. An increase in taxes to support the needy and unemployed.
2. In the drought states, real estate tax payments are likely to fall, he added, forcing either an increase in local levies or curtailment of the functions of local government such as schools and police.
3. "Invisible taxes" in the form of higher prices for food and an increased cost of living are likely.

City Departments Asking Increases

(Continued from page 1)

Committee headed by Alderman Ross Goodman has estimated power costs for the coming year at \$27,500, \$2500 more than appropriated for the present year.

An \$815 increase is being sought by the city-county health department, whose requested new appropriation is \$6215.

The city library board budget estimate of \$13,686 is \$1000 higher than the 1935 appropriation but actually is unchanged as far as it affects the city tax levy. As a result of the recent city audit, it was decided \$1000 in the library fines fund should be included in the budget, a practice not previously followed.

Trucks Still Idle

PORTLAND, Ore., Aug. 6.—(P)—Refusal of union truck drivers to return to work unless Portland sand and gravel plants would meet union demands pending negotiations blocked efforts to bring about resumption of hauling today.

Reformatory Not Solution, Claims

(Continued from Page 1)

Care was exercised by officials in the selection. Foreman also said there probably were some inmates of the boys' school who might be transferred to the penitentiary with good results.

Increase in the size of the prison farms, operated by trustees, was suggested by Foreman as a means of handling the penal situation in this state. He recommended establishment of various industries at the boys' school.

Foreman said the per capita cost of operating penal farms was much less than the per capita cost of operating a penitentiary. The suggestion was made that articles manufactured at the penitentiary and boys' school be sold to other state institutions.

2 Secret Service Leaders Demoted

WASHINGTON, Aug. 6.—(P)—The anger of Attorney General Cummings at a secret service investigation of his G-men was cooled today by demotion of two high secret service officials.

Secretary Morgenthau, in whose treasury department the secret service is a unit, announced punishment of the pair in a letter to the justice department chief. Cummings replied he had dealt with the matter in an "effective fashion."

Joseph E. Murphy, a veteran of 25 years' service who commanded the White House guard from 1914 to 1919, was demoted from assistant chief of the secret service to chief of a bureau yet to be named.

Grady Boatwright, another former presidential bodyguard, was demoted from chief of the St. Paul bureau to a field post.

Rapid Progress Is Made, Water Task

(Continued from Page 1)

C. Small and a newspaper man on a tour of inspection, said he hoped to be able soon to begin laying the pipeline ditch and river crossings. The Santiam is at extreme low level with the current slow and the depth probably not over three feet at the most.

Metaxa Disclaims Dictatorship Aim

ATHENS, Aug. 6.—(P)—Premier John Metaxa disclaimed tonight any dictatorial ambitions in his abrogation of constitutional government.

Martial law, dissolution of parliament and the concentration of cabinet authority in few hands, primarily his own, were urgent steps to combat threats of communism. Greece's "strong man" said and will be reconsidered after all danger has passed.

Hopes Slight For Entombed Miners

BARNESLEY, York, England, Aug. 6.—(P)—Fifty-seven miners apparently lost their lives today, entombed by an explosion in a coal pit.

As rescuers battered through wreckage to return bodies to the surface, officials of the Wharfedale, Wood, Moor company, in whose colliery the subterranean blast occurred, reported 21 bodies recovered. The others were listed as missing.

Force of the explosion hurled many of the men to instant death and others apparently were suffocated by gas.

East Colorado Is Swept by Floods

(Continued from Page 1)

200 patients and the furniture of the institution. The stream swirled out of its banks after a cloudburst last night, latest of a series of intermittent storms in central Colorado the past 13 days. Rainfall was reported as heavy as six inches during the past week in some sections.

This same storm brought new flood threats to Walsenburg, south of Pueblo, where 50 homes were damaged and highway and railroad bridges were washed away in floods Monday night and yesterday.

The first death resulting from the high water at Walsenburg occurred today: Romolo Pacheco, 32, a paralytic, died of shock and

DOCTOR'S FORMULA RELIEVES AGONY OF RHEUMATISM

Army Doctor Offers His Private Prescription to Mankind—Quickly Relieves Pains of Rheumatism, Neuritis—Reaches Painful Uric Acid Deposits Through the Blood Stream

Many men and women who read this are desperate with the fear and agony of rheumatic pains. How well you know!—you sufferers—what this scourge of mankind means to its victims! Long, sleepless nights—tacked with pain; dull half-alive days—crippled with the horror of neuritic agony; inflamed, aching muscles and joints—every fibre of your body crying for relief and peace; tissues loaded with impure deposits of body poisons...

Thousands suffering from rheumatic pain are guaranteed quick relief with doctor's formula—or money back.

Money-Back Guarantee. The name of this medical formula is Williams' Dr. R. U. X. Compound. In certain cities of the United States it is already available. One of these cities is Salem and a limited supply has been placed with the Perry's Drug Store.

This scientific formula—Williams' R. U. X. Compound—must not be confused with "pain-killers" and "cure-alls." There is nothing supernatural about it—its extraordinary properties are based on simple Natural Laws.

It is offered under this unheeded guarantee: IF YOU ARE NOT RELIEVED OF YOUR RHEUMATIC PAINS IN 10 DAYS—if you are not completely—utterly—satisfied—no matter how many years you have suffered—simply bring the empty bottle back to your druggist and he will hand you over, without question, every cent you paid for it.

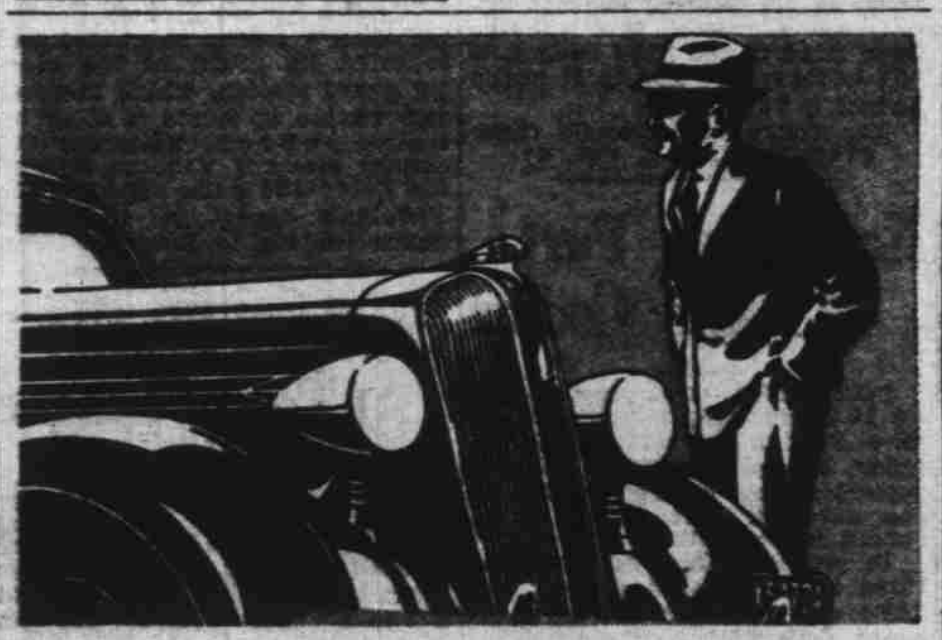

REMEMBER—a limited supply of Williams' R. U. X. Compound is now on hand at the Perry Drug Store, Salem.

Williams' Products Available at Perry's Drug Store 115 S. Commercial

BEFORE YOU BUY YOUR NEW CAR compare YEAR-OLD PRICES

After your new car becomes a used car, its price will be determined by the value originally built into it.

Better value is the reason year-old Plymouths bring up to a hundred dollars more than corresponding models of the "other two" lowest price cars... even though "All Three" cost about the same when new.

Drive a big, beautiful new Plymouth today. It is America's most economical full-size car. The only lowest price car with both Safety-Steel body and Double-acting Hydraulic Brakes. And Plymouth is the roomiest, most comfortable, most luxurious car of "All Three."

Come in today. Prove for yourself that Plymouth gives you more for your money than any other lowest price car.
