Vocational Work Gets More Funds

\$113,298 Annually Comes to Oregon; Half of It Must Be Matched

WASHINGTON, Aug. 6.—The federal office of education said today that the state of Oregon, under the George-Deen act passed by the 74th congress, would receive a federal contribution of \$113,298.39 a year for vocational education.

The office envisioned the extension of vocational opportunities to "many more youths and adults."

The act provides that for the fiscal years 1937 to 1942, the states must match with state or local money only 50 per cent of federal contribution, increased to 100 per cent in 1947.

The education office said Oregon's share under the 50 per cent matching program would be \$61,649.20 a year. It was calculated that the state's federal allotment would be divided as follows: Agriculture \$28,282.34; trade and industry \$32,364.82; home economics \$3,651.23; distributive occupations \$10,000. The allotment for teacher preparation amounted to \$10,990.

The state's annual share, as computed as follows: Agriculture \$14,141.17; trade and industry \$15,682.41; home economics \$1,825.62; distributive occupations \$5,000; teacher preparation \$10,000.

The law became effective July 1, taking the place of the George-Deen act and supplementing funds provided by the Smith-Hughes act.

Returns From Hospital

HAZEL GREEN, Aug. 6.—Alexander Sharp, jr., was able to be brought home from the Deaconess hospital, Sharp had an appendicitis operation Thursday. This was the fifth appendicitis operation for this community in recent weeks. The others were Lawrence Zielinski, Donald Zielinski, sons of Joseph Zielinski, Hilda Slatum and Ruth Montandon.

Oats, Wheat Yield 60 Bushels, Acre

FRUITLAND, Aug. 6.—Thrashing is in progress in this locality. While not yielding so well as last year, it is a fair crop. Nick Getig has the highest yield, both oats and wheat yielding 60 bushels per acre.

While boring for water on Mrs. Emma Runner's farm, Albert Harmon discovered an artesian well. He went 12 feet finding blue clay and rock. The water came at once to the top and is now running about 1800 gallons a day. It is close to a beaver dam where Mr. Harmon is growing beans for a cannery.

Flies beetles are destroying kale and cabbage in this vicinity. Rev. E. Petticoat preached and held communion services Sunday evening at the Fruitland church. Chas. Fogg, the pastor, is now moved in the parsonage at Jefferson.

Beets Delivered, Mt. Angel Plant

NORTH HOWELL, Aug. 6.—Several farmers in this district have been delivering beets to the Mt. Angel plant this week. Among them are Ted Stevens, who has four acres, George Cline, one, and Steve Sypher, two.

C. E. McIlwain is seeding four acres of garden beets this week, which he expects to harvest in October. Mr. McIlwain has recently installed a new overhead irrigation system and will use the water from the Labish ditch to irrigate the beet field. The crop has already been contracted by a Portland cannery. Canning meets are a new crop venture for this community.

A. T. Cline and George Cline are irrigating an eight-acre field of alfalfa this week. The Clines installed a hydraulic pumping system several years ago and use the water from Pudding river.
