Corn Climbs to 16-Year Record, Tumbles in Profit-Taking

Large Imports | Salem Markets Said Arranged

Cash Purchase at \$1.37 Is Reported; Other Grain Takes Same Trend

CHICAGO, Aug. 19 .- (AP)-Rightabout-face action of speculators tumbled corn values suddenly backward late today after 4 cents new soaring had outdone 16-year high price records.

with a purchase of immediate delivery No. 2 white corn at \$1.37 a bushel, almost 18 cents over the price of September contracts. Serving as an incentive for moves to realize profits on the part of holders of corn futures was an estimate current that vessel - space for 10,000,000 bushels of Argentine corn had been chartered in the last two weeks for shipments to North America.

Corn closed nervous, 1/4c to 3/4c higher compared with yesterday's finish, Sept. \$116 1/2-1/4. Dec. \$1.00 % - %. May 96 % c; wheat %c off to %c up, Sept. \$1.14 % %c off to %c up, Sept. \$1.14%-1.14½. Dec. \$1.13-1.13½. May \$1.10%-%; oats ¼-½c advanced, Dec. 45%-%c, and rye at ¼c decline to 4c gain. Provisions results varied from 2c setback to 5c

Other Grains Soar Not only did corn reach new price records, but the strength of that grain lifted wheat, oats and rye to fresh peaks for 1936, September wheat the topmost in two years. Scantiness of terminal stocks of old corn and a tremendous shortage expected in yields of new corn dominated the corn market most of the day.

Wheat, rye and oats took their cue almost entirely from corn market changes. The Canadian wheat crop movement was reported as enlarging rapidly, with rural deliveries totaling 2,256,-000 bushels for a single day, the heaviest aggregiate of the season
