Wheat Advances More Than Cent With Foreign Market Strong

Loss Is Seen

Estimates Sensational But in Line With Beliefs **Previously Held**

CHICAGO, Sept. 3 .- (A)-Wheat prices advanced more than a cent a bushel today on strength de-rived from world developments. Higher prices in foreign mar-kets, cables said, were based on reports of good sales of Danubian wheat to Italy, of suspension of erport permits for wheat by Rumenia, and of better export business in Canadian grain,

Private crop estimates of Chicago grain experts released today had little market influence. Gains scored by both wheat and

corn prior to release of the estimates were well maintained despite transient fractional setbacks. Wheat closed 1-1 1/2 higher com-pared with yesterday's finish, September 1.09 %-10. December 1.08 1 - 1.07 1 - 1.07 1 - 1.07 1 - 1.08 1 and corn was %-1 1/2 up, September 1.06-06%. December 934-%. May 89-89 1/8.

Oats gained %-%, December 41%, rye 11/2-1%, barley 11/2-2, and provisions were unchanged to 15 cents higher. Estimates Startle

Favored Specialties Gain Against Trend; Loss For Day .2 Point

NEW YORK, Sept. 3-(AP)-Leading stocks squirmed under profit-taking pressure in today's market while favored specialties displayed independent strength. Steels, motors, utilities and rails generally found little stimulation in satisfactory business and industrial progress.

A number of traders seemed disposed to step over on the selling side in view of the prolonged weekend holiday just ahead. The Associated Press average lost .2 of a point at 67.8, or exactly what it picked up in the

preceding session. Transfers totaled 1,047,760 shares against 1,351,970 Wednesday. Of 815 stocks changing hands 357 declined, 287 advanced and 171 were unchanged. U. S. government securities continued their forward march as

Secretary Morgenthau announced September financing involving \$400,000,000 "new money," in addition to refundings amounting to more than \$500,000,000. Gainers up to a point or so included: American Locomotive 32-14 and Baldwin Locomotive Pre-
