PORTLAND, Ore., Sept. 4.—(AP)—Tom Flynn, starting his first game in several weeks, pitched the league-leading Portland Beavers to an 8 to 7 victory over Los Angeles tonight.

The home team hammered out four hits and capitalized on as many errors to score 6 runs in the first frame.

Bongiovanni, Beaver outfielder, started the barrage with a home run with none aboard and came back to plate in the same inning to pound out a single scoring two men.

Portland's eight scores came on six hits, off Thomas, who went out in the first inning, and Struss who finished for the Angels. Los Angeles touched Flynn for 10 but he kept them well scattered with the exception of the sixth when the visitors turned in their only two runs. Struss walloped two doubles in three times up.

SEATTLE, Sept. 4.—(AP)—Pasting the ball all over the park in five big innings, the Seattle Indians walloped San Francisco 16 to 8 here tonight to stay in the thick of the battle for the Coast league leadership.

The victory gave the Indians a three to one lead over the Seals in the week's series and kept them tied with San Diego in second place, two games back of the Portland Beavers.

San Francisco got to big Ed Wells for a pair of counters in the first inning. Tony Borjorj lifting the ball out of the park for a home run with a mate on base, but the Indians opened up on Sam Gibson in their half of the same frame with a single, a double and a triple in that order, shoved across three runs, and kept adding to their lead the rest of the route, finishing up with a four-run spurge in the seventh after bunching three-run clusters in each of the second, third and fifth.

Weekend Angling Ought to Be Fair

PORTLAND, Ore., Sept. 4.—(AP)—Water is a bit too low in some portions to permit good fishing but, in general, anglers should meet with fair to excellent luck in Oregon this week-end, the Oregon state game commission indicated in a survey today.

Paulina lake in Deschutes county continued to yield limit catches and East Sparks, Mudd and South Twin lakes in the last will be recommended to fishermen.

Lake fishing was fair in Benton county but streams were too low. Water also was too low in Yamhill county but fish were being taken.

Catches of trout and salmon increased in Lincoln county.

Fishing on the Rogue river improved.

THE HEAD OF THE HEAVYWEIGHT PARADE IS GERMAN PRIDE -- SCHEMLING

WHILE ANOTHER TEUTON WITH A SMASHING RIGHT, GUSTAVE EDER, IS THE LEADING WELTER CONTENDER...

IT is beginning to look as if Herr Hitler's athletes are really out to get some place in the world of sport. With typically Teutonic stubbornness and concentration, the Germans are particularly for the recent Olympics, and by working out a carefully planned program which threw most of their athletic strength into the many minor sports that form part of the Olympic program, the Nazi muscle men amassed the greatest number of Olympic medals. This was acclaimed as a German victory in the Olympics by

the Teutonic press, in spite of the overwhelming track and field triumphs of the Americans. It is said that Germany is now determined to build up Aryan sport prestige by annexing as many fistic titles as possible. Many crack German boxers were ordered to remain amateurs until the Olympics, but now they will be sent out as pros, with the various championships as their goals.

Hitler's hammerers are off to a good start, with two such ferocious smackers as Max Schmeling and Gustave Eder, respectively, heading the contenders in the heavyweight and welterweight divisions.

Of Schmeling, enough has been said following his triumph over Louis. It appears as if Brautrock is attempting to dodge the Teuton, but Max will ultimately get his title crack.

Meanwhile, Eder stepped into the role of No. 1 challenger for Barney Ross's diadem when he scored a most impressive kayo over the formidable Jimmy Leto.

We're facing a mighty tough schedule with a team that will lack experience in early games, so the best I can figure out is a 'darkhorse' rating."

PITTSBURGH, Sept. 4.—(AP)—The third-place Chicago Cubs picked up half a game on the National pace-setters today by trouncing the Pirates 8 to 2 behind Larry French's seven-hit pitching.

With the league-leading Giants and second place Cardinals idle, the victory left the Cubs 4½ games back of the New Yorkers and half a game away from the Gas House gang.

The victory was French's 17th of the season. He was opposed at the start by Bill Swift, but Mac Brown was called on to finish after he had given a dozen hits in the less than eight innings he worked.

Ethan Allen, with a double and two singles, and Billy Herman with two singles which drove in three runs, led the 14-hit batting attack the Cubs fired at Swift and Brown.

Edwards went into the game in the third inning after the Paper Mill had scored its lone run and turned in a fine game of relief pitching. Errorless support by the donkeys and stellar first base work by Ray Elliott kept him from being driven from the mound.

Edwards only went to bat once and that time drew the docile Bambino, known as the home run donkey. Edwards, however, didn't even make his mount's running ability good for a single and was thrown out at first.

Bill Moye did a pretty good job of riding some of the worst buckers in the lot, having had previous experience as a mule-skinner.

The donkey polo game preceding the baseball exhibition was a tie, each team scoring five goals. Nick Serdota was the best broom-wielder for Edwards' club.

The final session of the donkey series will be held tonight.

The donkeys will move on to Stayton Sunday where the firemen will play the businessmen.

Second Generation Sutton Girl Is In Tennis Limelight With Victory Over Second Ranking U. S. Player

FOREST HILLS, Sept. 4.—(AP)—Dorothy May Sutton Bundy, fair-haired 20-year-old daughter of May Sutton who won the title in 1904, today eliminated Mrs. Sarah Palfrey Fabyan, of Cambridge, Mass., second ranking player in the country, from the national women's tennis singles championship, as most favorites squeaked through with close victories.

Fred Perry of England and Don Budge of Oakland, Calif., favorites in the men's championship, both survived, but they are well aware tonight that they'll be playing for keeps from now on.

Perry beat Ernest Sutter, the intercollegiate champion from New Orleans, 8-6, 6-2, 6-1, and Budge nudged Gardner Mulloy of Miami, 4-6, 6-2, 6-0, 6-1. Both Sutter and Mulloy put up a brave fight in the first set and played just well enough to summon the best Perry and Budge could give.

Thereafter, however, there was nothing to either match.

Bundy Girl Clever
The darling of the day was the flaxen-haired daughter of the famed May Sutton. A short, chunky little girl playing in her first major championship, she had supreme command of the situation from the middle of the first set on.

Mrs. Fabyan won the first three games of the match, then lost two, and won three more to lead a set, but the youngster started the second set by winning the first game and from the on held the advantage. Hitting the ball with a clean, free stroke, she was especially effective with her forehand, which she drove past the erring Mrs. Fabyan time and again.

With the score tied at one set apiece, Miss Bundy took the first three games of the last set and then managed to keep winning on her service. The score of the entire match was 2-6, 6-3, 6-4.

Tough Assignment Ahead of Bierman

Minnesota to Play Husky Early and Vacancies Must Be Filled

MINNEAPOLIS, Sept. 4.—(AP)—Bernie Bierman, Minnesota's No. 1 man, shuffled the gopher football squad in spring practice but couldn't find enough trumps to make him optimistic over winning all the game tricks as he had for three years past.

Minnesota will be strong, but will it be strong enough to whip a formidable University of Washington outfit September 26, then wade through a tough Big Ten schedule for the fourth consecutive year unblemished by defeat, is the question raised by Gopher fans.

For Bierman still needs three acres and the opening kickoff at Seattle is less than a month away. And the Huskies are waiting—ready, while Minnesota lost seven first string players from its 1935 national champions.

May Find Needed 3
When practice begins Sept. 10, Minnesota mentor may find the three cards needed to produce another winning combination in little Rudy Gmitro at fullback; Sammy Hunt at quarter, and Earl "Bud" Svendsen at center.

Ineligibility, however, may cloud this prospect as it may even threaten an otherwise promising squad. To what extent eligibility will figure will not be known until Bierman returns from New York September 9.

With that out of the way coaches will concentrate on replacements for Sheldon Beise at full; Glenn Seidel at quarter and Dale Rennebohm at center.

Gmitro's ability at halfback has been tested and proven but full back is something else again. If he makes the grade he will be the lighting full the Gophers have had in years. He weighs 160 and his speed would offset to some extent his lack of weight. Whitman York, Vic Spadaccini, and possibly Captain Jules Alfonso are ready, if Gmitro falters.

Alfonse Returns
Alfonse, a sparkling halfback, was ineligible last year and is expected to play his old position at left half this season.

Sammy Hunt came into his own as a quarterback to succeed Seidel though if more weight is needed for blocking duties Bud Willinson, last year's guard, may get the call.

Rennebohm's old pivot post is wide open though Svendsen, who saw some action last year, is the most likely looking candidate in a field of four. Andy Uram and Bill Matheny, backed up by Clarence "Tuffy" Thompson are expected to make the fans forget the loss of George Roscoe at half and the North Bend guard will compare well with any of Minnesota's foes.

Dwight Reed and Ray King, two veterans, will be back at ends; Ed Wisdeth, 225 pounds, another veteran, and Lou Midler will probably get the call at tackles and Bob Weib heads a number of guards, one of whom are first class material.

Report on Cities Merger Received
MARSHFIELD, Ore., Sept. 4.—(AP)—A 30,000-word report on proposed merger of Marshfield and North Bend arrived at four Coos Bay cities today from the state planning commission which made a study of the project.

No recommendations were included. Cities receiving the report were Marshfield, North Bend Eastside and Empria.

scutching machine that would cut the cost of scutching, even in that 30-machine plant and with prison labor, in a manner making that operation much too costly to consider continuing. The cost was reduced from about six cents to about one cent a pound.

So a scutching machine of the new type was bought; and since that time two or three additional ones were made in the prison shops.

Besides vastly cutting cost, the new machine saves a great deal of fiber that was wasted under the best plan known before its invention.

Many new inventions and devices in linen manufacturing have been made during late years, from the yarn stage on up to the finest tapestries and laces.

Machines are fashioning articles that in ancient days were almost priceless, owing to the infinite pains and time of hand work.

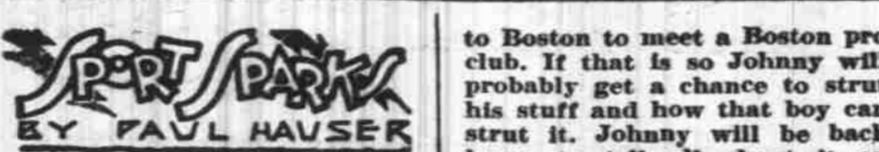

In these topmost rungs of the ladder of the linen kingdom high wages prevail.

And, taken as a whole, the industry will eventually pay high average wages, compared with many other lines of manufacturing.

When Mrs. Lord began her advocacy of a great linen industry in her state, the finest fibers in the world were supposed to and did come from the Courtrai district, West Flanders, Belgium.

Mrs. Lord went there, to study the processes of growth and manufacture.

Wonder what Willamette is going to charge for its six home football games this season? Seems to be that a flat rate, not too stiff, with no reserved seats might be a good experiment. This is an age where volume in sales means more profit than much profit on few sales and the cut-rate methods might well be applied to football. Softball at a low admission fee has shown what kind of crowds can be drawn in this man's town if the entertainment's good. With so many big games in Portland, Corvallis and Eugene this fall it seems as if Willamette will have to make some kind of an adjustment.
