Quiet but Persistent Buying Starts Stocks on Upward Trend

Steels, Rails Lead Advance

Slowness of Trading Only Detracting Factor as Average Lifts .4

NEW YORK, Sept. 17-(AP)-Quiet but persistent buying forces got behind the stock market today and rallied recently depressed issues fractions to around 2

Leading the forward push were selected steels, rails, motors, oils, coppers and specialties.

Only the relatively slowness of trading detracted from the satisfaction in brokerage circles over ability of the list to reverse its backward trend.

The Associated Press average of 60 issues was up .4 of a point at 67.3 against a decline of .7 the previous day. Transfers totalled 773,370 shares compared with 1,042,412 yesterday. It was the smallest 5 hour volume since June 29.

A few automobile shares took a turn for the better as most factories were expected to start humming in the next week or so in production of 1937 models. Some trading hestitancy was at-

tributed to the cloudy foreign scene. Reflecting the contined flow of gold from Paris and the continent to London, sterling whirled up to a new 2-year peak before meeting resistance. The French franc held about even.

Solicitation not Approved, Report

Without approval of the Business Men's league and without a city solicitor's license two Portland policemen in uinform have been selling tickets to a Portland police benefit dance in the down town district.

The two Portland policemen are said to have used high pressure tactics in peddling their tickets which were for the annual benefit ball September 19 and sold for \$2 each.

Chief of Police Frank Minto said that he had told the Portland officers he had no objection to their selling but also said he had given no official approval.

Wheat's Early Loss Reversed

Curtailed Estimates Both On Canadian, Southern **Crops Given Credit**

CHICAGO, Sept. 17-(P)-Active buying that developed late today brought about an abrupt advance of wheat prices sharply in contrast with earlier setbacks.

Giving incentive to buyers at the last were curtailed estimates both of Canadian and southern hemisphere wheat yields, together with reports that Italy is negotiating with Roumania for the purchase of many million bushels of wheat. Moreover, arrivals of wheat at Canadian country stations were reported today as having shrunk to the smallest total since Aug. 17.

Southwest advices that a large business in flour is being done added impetus to the late upturn of wheat values.

Wheat closed firm at the day's top figures, % to 1 cent above yesterday's finish, Sept. 115-115-14, Dec. 113 %-%, May 112%-%; corn %-1% up, Sept. 115%-%, Dec. 96%-%, May 91%-%, and oats %-% advanced, Dec 43.

Winnipeg messages said the latest report for a 24-hour period showed Canadian rural marketings of wheat amounted to but 1,937,000 bushels against 3,131,-000 a year ago. Corn, oats and rye fluctuated

mainly in line with wheat, Country offerings of corn were meager. Provisions reflected hog market downturns.

Demand in Wool **Trading Spotted**

BOSTON, Sept. 17-(AP)-(US DA)-The demand was rather spotty in the Boston wool market today with some houses getting a fair call while others received very little. Most grades of Ohio fleeces had some call.

Fine Delaine Ohio fleeces brought 35-36 cents in the grease, while fine Delaine Michigan fleece wool was offered at around 34 cents. Staple length 1/2 blood Ohio wools had a number of calls and were readily salable at \$6-36 1/2 cents, but the amount offered was rather limited.
