Answer Filed In Crash Case

Grimes Says Gretzingers' Car Speeding, Brakes Were Defective

Alleging that the death of Christian F. Gretzinger was caused by the negligence and carelessness of his son, Carl Gretzinger, L. A. Grimes yesterday filed his answer in circuit court to the \$10,000 damage action brought against him for the death of the elder Gretzinger by Aldov Blume, administrator of the estate. The answer admits that cars driven by Grimes and young Gretzinger collided at the intersection of 12th and Rural streets on the night of June 10, 1936, but alleges that Gretzinger failed to give right-of-way, was driving at excessive speed, failed to have control of his car and was driving with defective brakes. The elder Gretzinger died as a result of the wreck.

The deceased, the answer states knew of the conditions and by failing to object to them contributed to his own death. Dismissal of the action is asked by Grimes.

5 Stops

JUST DRIVING TO THE DRUG STORE

4 out of every 5 miles you drive are "STOP-and-Go"

YOU STOP FOR A TRAFFIC LIGHT
... as You Drive From Your House. Shifting Gears After a Stop Like This Can Use Up Enough Gasoline to Take You 1/3 of a "Mile."

A TRAFFIC OFFICER STOPS YOU
Today There are 131,000 Police Officers Who Make the Nation's Highways Safer... But are One Reason You Shift Gears 60 Times a Day.

CROSSING A HIGHWAY
You Have to Make Another Stop. Almost Every City and Town Has "Stop" Streets Today.

Costly—unless your Gasoline has these 3 Kinds of Power—in Perfect Balance

A TRUCK BLOCKS THE ROAD
"Stepping on it" to Make up for Lost Time Can Use up 60% More Gasoline Than Running Along Steadily at 30 Miles an Hour.

AND MORE STOPS
Driving Home. It's Easy to See the Reasons Why You Need the "Stop-and-Go" Gasoline—Super-Shell.

IN TODAY'S DRIVING, you stop over 30 times a day. For economy here, you need a gasoline that gives fast pickup. On the other hand, you start your engine 10 times a day. For economy here, you need a gasoline that starts quickly.

If you're a typical motorist, you drive an average of 27.4 miles a day. So you also need a gasoline that's economical in steady running.

Just as your car needs 3 shifts of gears, your gasoline needs 3 kinds of power.

First to recognize the need in today's driving, Shell engineers combine these 3 kinds of power in one fuel—Super-Shell, the first truly balanced gasoline!

Super-Shell is sold at over 30,000 neighborly Shell stations from coast to coast.
