Mild Recovery Moves Sets In Late but Fails To Stem Tide

NEW YORK, Sept. 25-(P)toppled today as the Stocks French financial crisis seemed to presage imminent devaluation of the franc or establishment of a gold embargo.

Losses among leaders ranged from fractions to 2 points generally, with a few declines much wider. Some shares managed to weather the storm with moderate

The reversal came in the face of highly cheerful domestic business and industrial developments.

Industrials and rails bore the brunt of selling, although utilities were not far behind. Recently strong specialties were among the first to go overboard.

Unload Comes Fast Somewhat surprisingly, the list exhibited a moderately upward tilt at the start. The unloading started in the second hour when offerings came so fast the ticker tape fell about 3 minutes behind

under way later in the session. But the volume dwindled apprecfably and only a handful of losers were able to finish above their lows of the day.

The Associated Press average of 60 stocks suffered a net loss of 1.3 points at 67.1, the largest dip since August 21, last. Transfers totalled 1,513,930 shares against 1,193,840 yesterday.

# Hop Markets

4-Year Contract on 1500 Bales Written but Price Secret

Pacific coast hop markets con tinued to advance during the week ended September 23, reflecting an improved demand from domestic interests, according to the weekly hop market review of the United States bureau of agricultural economics. Prices in the principal producing areas of the three coast states were 1 cent to 21/2 cents higher compared with a week ago. reaching new high points for the season to date. Trading was active in California and Oregon markets at the higher values, with the comparatively light supplies of 1936 hops reflected in additional interest being shown in 1935 and crop 55c to 70c per pound. 1934 growths.

Oregon markets were very firm during the period and 1936 crop Child Is Saved hops advanced around 21/2 cents per pound to growers, compared with the previous week. Trading was active with sales by growers including 906 bales of 1936 crop Clusters, of which 456 bales netted 42 cents to 43½ cents, with 150 bales bringing 44½ cents, and 300 bales at 45 cents per pound, 128 bales of 1935 crop pound, net growers. 250 bales of 1934 crop Clusters brought 20 cents and 175 bales of the same year sold at 201/2 cents per pound.

of a four-year term contract covering 1,500 bales, for the years 1936-37-38-39. The prices howavailable. All of the above sales terests, with foreign demand generally lacking.

#### Fuggles Bring 421/2

Washington markets were also reported firm and higher. No reports were received covering sales during the week in the Yakima valley, but 115 bales of choice 1936 crop Fuggles brought 421/2 cents per pound, in the Puyallup valley of western Washington.

California hop markets continued their upward trend during the week, with the relatively light remaining supplies of 1936 hops meeting improved demand. Prices advanced 1c-2c per pound to a new high point for the season. Trading was active with 860 bales of 1936 hops sold by growers in a price range of 43c-46c per pound. These sales included 140 bales in Mendocino county at 46c, 200 bales in Sonoma county at 45 375 bales in the Sacramento valley at 45c and an early period sale of 140 bales at 43c in the latter section. At the close of the week, coastal county growers were receiving bids of 46c per pound, but were generally asking around 50 cents.

The small remaining supplies of 1935 hops were firmly held with sales confined to 166 bales which netted Sonoma county growers 32c per pound. Somewhat greater interest was shown in securing

The New York hop market continued to hold very firm in sympathy with the Pacific coast and prices on offerings from first hands have advanced another cent per pound for both old and new hops. Local brewers are buying ahead quite freely although cooler weather and a lighter output of their product is restricting their business. Beer consumption during August amounted to 5,928,390 barrels compared with 5,401,262 barrels a year so. Imported hops continued slow but prices were well maintained at former levels, due to firmness in European markets. On Sept. 23, domestic 1936 crop hops were quoted to the trade at New York at 51c-54c, for prime to choice, 39c-41c for 1935 crop prime to choice, 36c-38c for medium to prime, and 26c-29c nominal for 1934 crop.
