Walt and Mr. Roosevelt's associate, Mr. Stratton, that Mr. Roosevelt had enough influence with the import and export bank and the Russian purchasing commission, then in the country, to swing the deal at the excessive price.

There was no further identification of Stratton.

Correspondence in which Fokker was alleged to have called Elliott Roosevelt and Stratton "chickens" was referred to in the deposition and Fokker was quoted as explaining that "apparently by that time he had come to that conclusion since no action had been taken toward the successful sale of Lockheed planes by Mr. Roosevelt and his associates."

The deposition quoted Fokker as expressing satisfaction with Tiffany's conclusion of the contract by a \$5,000 cash payment to Elliott Roosevelt "and the payment of a further check for \$6,656 through a brokerage house which it was difficult for Mr. Elliott Roosevelt to accept in view of the president's disputes with Wall street at the time."

OKLAHOMA CITY, Oct. 6.—(P)—Elliott Roosevelt, son of President Roosevelt, denied tonight he ever made a contract with Anthony H. G. Fokker to sell military airplanes to Russia.

Roosevelt said he had contracted with Fokker in February, 1934, to sell airplanes, but that the planes to be sold were not military ships and that the contract expressly stipulated that Roosevelt was not to sell to foreign governments or to the United States government, or to officials of such governments.

Roosevelt said that he himself caused the contract with Fokker to be terminated in May, 1934, that he had never sold or tried to sell an airplane under the contract and that he never received a dollar from the Fokker organization personally, although he said that \$5,000 had been paid under the contract to a salesman associated with Roosevelt.

Roosevelt said the contract was entered into at the behest of Fokker and it was drawn up by Fokker or his attorneys.

Dr. F. O. Riley, president of the Marion county republican club, extended greetings to the rally from Earl Snell, secretary of the state, who had a previous engagement. Following the rally a dance was held and refreshments served.

Children Happy at Farm Home, Claim

The story of the little girl who had spent three years at the Children's Farm home near Corvallis without realizing that she was in an "orphanage" was a highlight of the address given by I. M. Gilbert, superintendent of the institution, before the Kiwanis club Tuesday in connection with the club's father and son program.

The little girl had just seen a movie in which the rigorous life of a typical "orphanage" was depicted, and she declared that she would "just like to see them put me in one."

Sup. Gilbert said necessities for a happy childhood included a sense of security, personal recognition and opportunity to play and experiment with environment, and these were the things the Children's Farm home sought to provide.

Gratitude for contributions from friends in Marion county, including a utility building, a cottage at Newport, a swimming pool and music room, was expressed by Mr. Gilbert who was a charter member of the Kiwanis club here.

ary on October 1 and one-half month's salary on October 14," he added in explanation. Then because the teachers specifically requested it and in order to help them adjust themselves to a 13-months' condition, we paid them a full month's salary November 1. They had then been paid two months' salary for three one-half months of work."

The result was that when last September 1 the teachers received a check for a full month's salary, they actually received pay for one-half month in advance, or to September 15, Copper stated. Therefore, he maintained, pay only for the last half of September was due this week.

Copper said he agreed to the advance payment of two weeks' salary last November only on condition that a "statement be sent out to the teachers explaining the method of payment to be followed at the beginning of this school year."

A bulletin was sent to all teachers at that time advising them that on October 5, 1936, they would receive only one-half month's salary. Copper said, holding that thereby they had received nearly a year's advance notice of the nature of the payments made by the district this week.

Program Here Is Given Recognition

Salem is one of the two cities in the nation to receive mention in the current issue of the National Education association for their program in observance of American education week a year ago. The other city is Indianapolis, Ind.

The journal carries an article written by Dorothy Taylor Rea, principal of McKinley grade school here which outlines the extensive education week program carried on in the Salem schools last November. This and the article on Indianapolis are printed as examples for other schools to follow during the 1936 American education week, November 9 to 15.

Mrs. Rea's article, headed, "American Education Week—The Observance in Salem, Oregon, 1935," detailed the extensive schedule of entertainments, open house, talks and assembly events which were conducted in the schools following daily educational themes.
