Buying Rush on Stock Market Follows Roosevelt's Victory

Industrials Soar 1 to 5

Business Cheer Too Pushes Market to Higher '36 Levels

NEW YORK, Nov. 4 .- (AP)-The Stock market today greeted the Roosevelt victory with a buying rush that swept numerous industrials up to 1 to 5 points, and a few much more, to new recovery

Only the utilities seemed to find a flaw in the picture, the majority of these falling back sharply as holders unloaded, brokers said, n the theory the administration might resume its campaign for lower rates and further governmental regulation.

In addition to the ending of the election battle, the market was stimulated by the continued flow of cheerful business news. Commodities, including sugar, cotton and rubber futures soared with stocks. Bonds, especially second-ary and convertible loans, moved briskly to higher levels.

The demand for shares put the ticker tape 4 minutes behind at one time. Trading gained momentum in the final 15 minutes and prices generally closed at their tops of the day.

Volume Is Huge Transfers totaled 3,249,120 shares, the largest volume for a single session since Feb. 20, last. The Associated Press average of 60 issues was up .7 of a point at 71.1, duplicating its 5 year high. The composite held down by a decline of 1.5 points in the power stocks. The industrials held a gain of 2.1 points at 92.7.

Alding the coppers, which took the lead early, was another hoist in the export price of the red metal. Expectations of expanding earnings helped merchandising, farm implement, steel, motor, amusement, oil and a wide assortment of specialty stocks.

Wheat Advances

CHICAGO, Nov. 4.-(P) Stimulated chiefly by enlarged export demand in Canada and by crop damage advices from Argentine, the Chicago wheat market today dvanced 1% cents maximum.

Upturns of securities and some revival of inflation talk counted, too, as bullish factors regarding wheat. Estimates were current that as much as 2,000,000 bushels of wheat had been bought for export from Canada.
