## Sale Leaders Causes Drops

Few Brokers Edging Out as Setback Expected Due to Sharp Boosts

NEW YORK, Nov. 10.—(AP)—Selling of recent leaders pushed up the stock market today and the closest of fractions to a point or more predominated at the close.

The session was not without its sunny side, however, as a wide assortment of specialties pushed up substantially, some to new recovery tops.

Earnings, dividends, wage boosts, bonuses and other encouraging business news provided a sustaining influence, but brokers found many traders edging out of commitments on the belief a sizable setback was due because of the sharp post-election advances.

Steele, motors and coppers gave the list its initial downward push, while merchandising, mining and specialty issues stepped into the advancing ranks.

Steele Behind Floor The ticker tape failed to keep up with the floor dealings in the first hour, but the activity dwindled later, while it was the second broadest market since the big break in 1923-24.

The Associated Press average of 60 issues was off 1/4 of a point at 72.7. The fact the industrial composite moved up 1/4 of a point to a new 5-year high helped offset somewhat the loss of 1/8 and 1/16 respectively in the rails and utilities.

The motors dropped notwithstanding encouraging prospects for the industry. Chrysler directors, after the close, voted a dividend of \$5.50, the largest in the company's history, and disclosed a 9-month profit of \$9.63 a share against \$5.35 in the same period last year.

General Motors passed off a "year-end" dividend of \$1.50, and announced a wage increase and a bonus for employees. Chrysler stock was off 1/4 at 135 1/2. General Motors was down 1/4 at 75 1/2.

Gains of fractions to 2 were held by International Harvester at 70 1/2, United Aircraft at 25, and J. I. Case at 16 1/2.

U. S. government securities were in demand but other bonds were uneven.

## 2-Cent Drop, Corn Market

Selling Increased to Pave Way for Adjustment Crop Figures

CHICAGO, Nov. 10.—(AP)—Downturn of almost 2 cents a bushel, maximum, in corn values today resulted largely from indications that rural holders were showing more willingness to sell.

Bookings of corn to arrive in Chicago were of more liberal volume today than at any time heretofore since September. Increased selling of corn futures was somewhat due, likewise, to readjustment of speculative accounts so as to prepare for any surprise in official crop figures schedule to be given out after the day's trading was ended.

Yield Looks Larger Talk which was current in some quarters, however, that the government might estimate the 1935 domestic yield of corn as considerably larger than 1,500,000,000 bushels was born out to only a moderate extent. An actual increase of 1,526,627,000 was shown, as against 1,509,000,000 officially forecast as November 1 and private estimates November 1 averaging 1,505,000,000 bushels.

Corn closed nervous, rather above the day's bottom level, but 3/4-1 1/2 cents under yesterday's finish, Dec. 1.01 1/4-1/2, May new, 95c; July, New, 91 1/4-1/2, May 1/4-1/2 down, Dec. 81 1/4-1/2, May 1/4-1/2 up, 98 1/2-1/4, 4 1/2-1/4, and showing 1/2 to 1 cent decline. Dec. 85 1/4-1/2. Provisions results varied from 12 cents setback to 10 cents advance.

Butter Holdover Nearly Double Stocks on Hand At This Time Year Ago

SAN FRANCISCO, Nov. 10.—(AP)—Stocks of butter in the hands of Pacific coast dealers at the end of last week were 7,776,820 pounds, compared with 3,926,264 a year ago and 2,393,911 two years ago at the market service reported today.

Prices of all grades, cut 1/4 cents yesterday, apparently responded to relatively large supplies. Top grade today was 3 1/4 cents at wholesale, while 91 and 90 scores were 33 cents and 89 score 31 1/2.

Chief increases in supplies were at Los Angeles, Oakland, Portland and San Francisco.

## Gardeners' and Ranchers' Mart

The cabbage market was higher with round types bringing \$11.25 to \$12.25 per crate. Heavier arrivals of iced lettuce caused a slight decline in the market with 5 dozen Washington stock selling at \$2.25-2.40. Tomatoes were sold at \$2.25-2.40. Potatoes moved at higher prices and potatoes reacted with higher prices at the point of shipment.

The market will be closed all day tomorrow, opening as usual Thursday morning.

## Construction Is Started on Shed And Boiler House For Flax Plant; Scutching Awaits Machinery Placing

MT. ANGEL, Nov. 10.—Construction on the additional storage shed, fuel shed, and boiler house for the Mt. Angel flax plant, made possible by the \$66,000 federal grant, one-third of which was allotted the local plant, has begun.

About 15 men are being employed at present. This includes the men who are helping with the desceding. Fred J. Schwab, manager, said that the desceding would go on all winter.

All the foreign machinery has arrived and as soon as it is installed scutching will begin. The new shed which is to be used as a storage place for the large quantity of treated flax will be 56 by 240 feet in size.

The new federal allotment will be used not only to finance construction work but also to carry on the operation of the plant during the coming year.

## Rodent Control Is Demonstrated

Two rodent control demonstrations were held Monday by County Agent Harry Riches on the farms of J. C. Leedy near Brooks and S. Hamrick, five miles east of Salem. J. F. Branson of the U. S. Biological survey led the discussion and demonstrated the proper way to mix and place bait for poisoning pocket gophers, how to locate mole runways and how to place traps so that they will not be detected by the moles.

Branson stated that the fall of the year is the best time to poison gophers. The formula for mixing bait is an ounce of strychnine to 10 pounds of green clover or alfalfa leaves. Strychnine for preparing bait can be secured through the county agent's office.

Extension bulletin No. 441 entitled "Controlling Rodent and Other Small Animal Pests in Oregon" can also be secured through the county agent's office.
