Trouble in North China Anticipated

NANKING, Nov. 12.—(AP)—The Chinese government here asked immediate evacuation of all foreigners from northwest China where an attack of 30,000 Manchukuoan and Mongol troops was reported.

(The attack was reported reported in Suiyan province, one district from which the government urged evacuation.)

The government said notes had been sent all governments maintaining diplomatic relations with China asking them to urge their nationals to leave Suisan, Ningxia and Tsinghai provinces and "also some parts of Inner Mongolia under separate Mongolian jurisdiction."

Visas will not be issued to additional foreigners to enter the provinces named, the government said, because "Chinese authorities will not be responsible for protection of foreigners" in the areas.

Suiyan and Kansu provinces hold the majority of Americans in northwest China.

Mother Subs for Star Daughter

Leah Ray Mrs. Leah Ray Hubbard

Another unique situation came about in Hollywood when the close resemblance of Mrs. Leah Ray Hubbard, right, won her a job as stand-in for her daughter, Leah Ray, during filming of a movie in which the talented young singer is starred.

Williams Speaks Sunday at Dallas

DALLAS, Nov. 12.—Sunday morning at 11 o'clock, Rev. S. C. Williams of Portland, an outstanding speaker of Oregon, will occupy the pulpit at the Dallas Presbyterian church. His subject will be "Harvest Home." Joseph C. Hartley, director of the Presbyterian choir, is arranging special music for the service.

A covered dish dinner is to be served and a social time held. Rev. Williams and his family will be special guests at the dinner.

Wachters Motor South

MT. ANGEL, Nov. 12.—Mr. and Mrs. Jos. L. Wachter left this morning by motor on a two weeks trip to Stockton and other points in California. Traveling with them was Mrs. Wachter's father, Fred Schwab.

Trend to Higher Wages Spreading

CHICAGO, Nov. 12.—(AP)—Thousands of workmen have joined the ranks of industrial employees receiving higher pay and bonuses.

The Eastman Kodak company at Rochester, N. Y., declared a wage dividend of \$2,200,000—\$1,000,000 larger than the 1935 melon.

Cutler Hammer, Inc., announced it would distribute approximately \$225,000 among 2,750 persons at its Milwaukee plant and New York branch on December 10.

Training School at Monmouth Has Special Projects on Display for Observance of Educational Week

MONMOUTH, Nov. 12.—Education week is being observed in the training school at Monmouth, displays of work chosen from the various grades, being made in downtown windows. A summary of work being carried on in project form, in each grade, at the present time, was prepared for distribution by Miss Dora Scheffsky, sixth grade teacher, as follows:

In the first grade pupils are reading and studying about boats. Interesting pictures of boats, painted by the children, are the features in one downtown window. Miss La Vada Reed is the supervisor.

The second grade children have been interesting themselves in the activities of the fire department, and have made colorful reading charts for display, to indicate the trend of their study. Miss Ruth McClure is the teacher.

Study Colonial Days

"Colonial Life" is the current topic in the third grade, and their window display cleverly re-creates atmosphere with coaches, columned houses, fireplaces and the like. Miss Martha Taylor is the teacher.

The fourth and fifth grades are studying toys, this unit leading into history, geography and literature. Their exhibit is composed of attractive and interesting toys. Miss Neva Dallas is the teacher.

The sixth grade has been doing research on the history of writing. Their exhibit includes Egyptian hieroglyphics, cuneiform writing and Indian picture writing. Miss Scheffsky is the teacher.

Aircraft Interests Some

Airplane history and construction is the seventh grade study activity, following up with the uses of aircraft, and possibilities of careers and aviation. Their exhibit is a colorful display of this complex and varied study unit. Mrs. Elsie Cox is the teacher.

Study interest in the eighth grade has centered about pottery. The children have collected old pottery and pictures of older pottery. Their reading about the making of pottery has led to a start in making simple models.
