Stock Market Enjoys Good Upturn in Closing Days of 1936

Average Gain 1 to 3 Points

Shutdown Auto Plants Has No Serious Effect on Motor Stocks

NEW YORK, Dec. 30 .- (AP)-In one of the broadest upturns of the past several weeks, the stock market today swung back on the recovery trail for gains 1 to 3 points

A few "thinly" traded issues got up as much as 6 or so and fractional advances were widespread. Trading in stocks attained only moderate momentum throughout the greater part of the session, although the ticker tape speeded up a bit just before the final gong.

Best Day Since August The Associated Press average of 60 issues held a net gain of 1.2 points at 70.1. It was the largest single day's advance of this composite since August 27. Transfers totalled 2,305,070 shares compared with 2,280,642 yesterday.

That Wall street is encouraged was indicated by the sale of a stock exchange seat for \$130,000, up \$1,000 from a transfer announced

A shut-down of work at the Chevrolet factory, due to strikes in plants of General Motors subsidiary, Fisher Body Co., failed to depress automotive stocks unduly. General Motors Unchanged

General Motors, up more than a point at one time, closed unchanged at 64%.

Others conspicuous on the upside were U. S. Steel at 79 1/4. Bethlehem 77%, General Electric 54%, American Telephone 186, N. Y. Central 41 1/2. J. I. Case 145, U. S. Rubber at 48 %, and Standard Oil of N. J. 69 % .

Salem Markets | Corn Boost Lifts Grain

Future Deliveries Over To Peak Prices in Last Seven Years

CHICAGO, Dec. 30-(AP)-Shoot ing straight upward today, future deliveries of corn overtopped peak prices of the past seven years, and helped materially to lift quotations on other

grains. May delivery of corn, new style contracts, scored the maximum gain, mounting 1% cents to \$1.07% a bushel. July corn new also reached a fresh top price record at \$1.04.

Corn Goes Higher

At the close, corn prices ranged from the same as yesterday's finish to 1% higher, May new \$1.07%-%, July new \$1.04, Sept. 99 %-\$1.00; wheat % to 1 cent up, May 1.35%-%. July 1.18%-%, Sept. \$1.15%. oats 1/2-% advanced, May 51%-%, and rye varying from 114 setback to 1% bulge, May \$1.16%. In provisions, the outcome was 2 cents decline to 10 cents gain. Rye and oats responded like wheat to the strength of the corn market. Quotations on September rye, however, a new crop future, underwent a decline. For the most part, provisions climbed with hog values and with grains.
