Several Motors Make Gains Including Hudson and Auburn

NEW YORK, Feb. 2-(P)-Selected stocks were whirled upward in today's market, many for gains of 1 to around 4 points at new recovery tops.

General Motors cancelled an early loss of a point near the finish when a Michigan court granted an injunction against "sitdown" strikers occupying the company's plants, ordered them out within 24 hours, and prohibited picketing. The stock ended unchanged at 66%.

Other Motors Strong Other automotive issues, reflecting thoughts of a pickup in business for competitive manufacturers if the current "G.M." controversy is protracted, exhibited strength from the start. Chrysler led the group with a net advance of 3% points at 126%. Moderately higher were White Motors at 29%, Hudson 23, Auburn 35 1/2, Packard 11 % and Studebaker 16%.

While profit-selling reduced extreme upturns just before the close, the Associated Press average of 60 stocks retained a net gain of .7 of a point at 72.7. Transfers amounted to 2,429,500 shares compared with 2,356,170 yester-

Visible Wheat Supply Now Lowest Since 1923; Receipts Low

CHICAGO, Feb. 2-(AP)-Successive rallies from price setbacks National C.F.G. distinguished wheat trading today, with material net gains shown

at the last. Buying by previous speculative sellers was an outstanding feature, especially in late transactions. Reports of dust storms in parts of Kansas were received, as well as of thick ice covering fields of domestic new winter wheat elsewhere.

U. S. Supplies Low Friends of higher prices stressed statements that for this time of year the United States wheat visible supply total is now the smallest since 1923. Significance was also attached to the fact that wheat pfimary domestic receipts today, only 147,000 bushels, were the scantiest yet this season.

Chicago wheat futures closed at the day's top level, %-1 % cents over yesterday's finish, May 128-128 %, July 112 %- %, Sept. 108-%-%; corn unchanged to % down, May 105 1/4. July 99 1/4-%, Sept. 94 1/4; oats 1/4-1/4 up, May 49 % - %; and rye showing %-% gain. In provisions, the result was 10 to 32 cents drop.
