Storage of Crop Surplus Urged

Wallace before committee

Typical farm scene

Rapid strides are being made in Washington toward a farm relief program of permanent nature based on proposals sponsored by Henry Wallace, secretary of agriculture, and others brought forward by farm leaders who recently met in conference in the capital. Basic principle of the new plan is to establish a national storehouse to house surplus farm commodities during bumper years. This would equalize the supply released on the market and stabilize prices. Farmers would be able to use their surplus as collateral for federal loans. Crop insurance and control of production are other features of the program.

U. S. Senator Reynolds says: "Luckies are considerate of my throat"

"Two Southern traditions are oratory—and good tobacco. Lucky Strike shows me how to indulge in both. For this light smoke not only pleases my taste but leaves my throat in condition. Last fall in North Carolina—when I made over 100 speeches—I visited the Lucky Strike factory. I believe I discovered, in the Lucky Strike 'Toasting' process, the secret of what makes this cigarette so considerate of my throat. I have been more than ever an advocate of a light smoke since seeing the extra care and expense devoted to making Luckies easy on the throat."

Robt. R. Reynolds
HON. ROBT. R. REYNOLDS
U. S. SENATOR FROM NORTH CAROLINA

THE FINEST TOBACCO—
"THE CREAM OF THE CROP"

In a recent independent survey, an overwhelming majority of lawyers, doctors, lecturers, scientists, etc., who said they smoked cigarettes, expressed their personal preference for a light smoke.

Senator Reynolds' statement verifies the wisdom of this preference and so do leading artists of radio, stage, screen and opera, whose voices are their fortunes, and who choose Luckies, a light smoke. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on your throat.
