# Wheat Values Rush Upward

Chicago Mart Climbs 33% Cents When Big Buys Are Recorded

CHICAGO, March 15-(AP)-Big international purchases of wheat, estimated at about 5,000,000 bushels, including 2,000,000 bushels from Canada, rushed values

upward 3% cents a bushel today. Topmost prices reached for wheat in Chicago were attained during the day's final fransactions. Meanwhile, all Liverpool wheat futures except March mounted to fresh high price records for the season.

New crop wheat futures here showed the strongest upward trend, indicating increased belief that United States wheat export prospects are broadening. Stocks Here Dwindle

It was pointed out that visible stocks of wheat in North America are now more than 150,000,000 bushels smaller than was the case

At the close, Chicago wheat futures were 1%-3% cents above Saturday's finish, May \$1.36%-34, July \$1.21%-34, Sept. \$1.19%-34; corn varying from 1/4 decline to 1% advance, May \$1.09%-%. July \$1.05%-1.06, Sept. \$1.00%-%; oats at ½ to 1 cent gain, May 47%, and rye showing 14-2 % % bulge, May \$1.08 %. Provisions results were 5 cents off to 42 cents up. Other Grains Climb

In the main, corn, oats and rye climbed with wheat. Offerings of corn to arrive here were practically zero. The United States visible supply of rye was reported as less than half as large as at this time Provisions averaged higher, re-

sponsive to action of gains and of cottonseed oil.

In considering purchases for future requirements buyers were influenced largely by current prices and costs of recently imported wools.
