# Elisabeth Rethberg finds voice and throat safe with Luckies

An independent survey was made recently among professional men and women-lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Miss Rethberg verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies-a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.

## Famous Metropolitan Opera Soprano writes:

"I have been enjoying Luckies for about fourteen years. When I first came to America, I noticed that opera singers here smoke a great deal more than singers abroad. Now I think the reason is that so many American singers have discovered that their voices and throats are safe with a light smoke. That, at least, has been my own experience as a casual smoker. The fact that Luckies are a light smoke gives me a sense of ease about my throat." .
