Wheat Rallies Wipe Out Loss

Three-Cent Advance Based on Indication Supply Here to Be Needed

CHICAGO, March 20—(AP)—A three cents rally in wheat prices that wiped out Friday's loss took place today in major North American grain markets, propelled by buying attributed largely to fresh indications that importing nations soon would be dependent on this continent for supplies.

Winnipeg prices, up 3 to 4 cents at times to new highs for the season, led the advance and buyers here took their cue from the bulishness of traders on the Canadian market.

The immediat ecause for buying was believed to be a new and apparently official report that the Argentine grain board was alarmed over heavy wheat exports from that country and might enforce restrictions.

Chicago wheat closed 2 to 3 cents above yesterday's finish, at the day's highest, May $1.38¼-⅜. July $1.24⅜-½, September $1.22¼-⅜; and corn was ⅜-1⅝ up, May $1.10⅜-½, July $1.06⅛-¼, September $1.00⅞-1.01. Oats gained ¾-1⅛, May 47-47⅛, and rye 1⅝-1¾, May $1.10. Provisions were 5 cents off to 3 cents up.

Corn prices rose with wheat and other grains also were sympathetic with the market leader.

Provisions were unsettled.

Mountain Potato Seed Is Sold Out

SCOTTS MILLS, March 20.—It is reported that the potatoes in the Crooked Finger Mountain district near here have been practically cleaned up for seed.

One large grower in the valley, after testing the seed last year in competition with other seed, bought all the potatoes grown by two of the district's largest growers.

Because of the increased demand for Crooked Finger Mountain seed the acreage will be about 25 per cent greater this year.

Session Slow, Stocks Lower

Bethlehem and Others of Steel Group Advance Against Current

NEW YORK, March 20—(AP)—Stocks tumbled over a rough terrain in today's market.

A few steels, led by Bethlehem with an upturn of 1⅞ at 95, did better, along with a handful of rails, oils, utilities and specialties. But declines were in the majority.

It was the slowest session since Jan. 2, last, transfers totaling 713,030 shares compared with 1,129, 070 last Saturday. The Associated Press average of 60 issues was off .1 of a point at 72.

Deere fell 4⅛ points to 123⅞, and lesser losers included American Telephone at 171¼, Westinghouse 140j, General Electric 56, American Can 106½, Anaconda 63½, and Standard Oil of N. J. 70⅝.

Tilting forward, the majority by small fractions, were General Motors 62¾, U. S. Steel 117 and N. Y. Central 52⅛.

Dried Prunes Hit Trade Doldrums

Large Sizes in Demand But Stocks on These Are at Low Ebb

Trading in northwestern dried prunes during the past week has been the dullest of any period since the end of the waterfront strike. Heavy shipments made immediately after the strike have lately reached destination and jobbers' supplies remain fairly heavy. The consumer demand has been light and, until jobber holdings are reduced, it is thought there will be little demand for replacement. Nearly all packers report very little trading for the past week or 10 days and express a view of disappointment. Large sized prunes would sell if ample supplies were available, but the holdings of 30-40s are limited and held at a premium.

Current sales and quotations on prunes quoted in 25-pound boxes, F.O.B. Portland docks are as follows: 3-40s, 6½-6⅝c per pound; 40-50s, 4¼-4½c; 50-60s, 4-4½c; 60-70s, 4c; 70-80s, 3⅝c; prunes packed in sacks ¼c per pound less.

There are estimated to be very few prunes remaining in growers' hands. A few growers having unsold supplies have stored with packers and secured an advance loan, the remainder of the purchase price to be delivered at the time of packing.

London Supplies Short

A cablegram received from the London office of the department of agriculture dated March 16 stated: "Spot supplies short and all sizes moving, but prices show further declines on larger shipments. Packers appear to be pressing for business, but buyers are reluctant about making purchases owing to the ample stocks afloat. California quoted 30-40s 6.3 to 6.4c per pound; Oregon 40-50s, 4.9 per pound, C.I.F. port. Dried prune stocks in London, giving points of origin are: France 4.57, California and Oregon 472.1, Australia and cape 6.89, total 483.56 (basis 2,000-pound ton); last year, 2,713; 1935, 2,244 tons."

New Super-Coach Delivery Is Near

No delay is expected in the delivery of Pacific Greyhound's 100 new 1937 super-coaches, according to word received yesterday by L. D. Jones, traffic manager for the bus company. The General Motors bus factory at Pontiac, Michigan, has advised Mr. Jones that delivery will go forward on schedule and that the entire fleet will be available to handle the anticipated heavy vacation travel for the coming season.

Representing an investment of over one million three hundred thousand dollars to further improve Greyhound service for travelers in the western states, the one hundred new buses are part of a group order of 500 purchased by the affiliated Greyhound lines, the largest order for motorbuses in the history of the industry, a total expenditure in excess of six million dollars.

A short time ago, Pacific Greyhound lines purchased 50 of these new coaches, placing them in service between major cities in California. Mr. Jones stated the additional coaches were purchased because of the traveling public's warm reception to the new-type equipment, and will be placed in service on other routes and in transcontinental service.

Gardeners' and Ranchers' Mart

The asparagus market was steady and mostly unchanged regardless of fairly heavy arrivals.

The potato market moved lower in line with lower quotations at shipping points. The drop is attributed to lack of consumer demand and unless changed the short crop may be a long one.

Bunched vegetables were in liberal supply and moved actively at unchanged priors.
