Scott's Marionettes at Leslie Thursday

Scott's famous and popular marionettes will be presented by the Girl's league of Leslie junior high school Thursday afternoon and evening in the new auditorium. Performances will be at 2:30 and 8 p.m. Proceeds from the affair will go to the Girl's league to use in its project work.

"Aladdin" will be presented by Mr. and Mrs. Walter Scott's marionettes. They have appeared before Salem audiences before and have charmed the school children. It took nearly six months for the Scotts to create "Aladdin." They originate their own show and make the marionettes, sets and costumes and Mrs. Scott writes the script. They divide the speaking roles and each handles two figures at a time.

Scott's puppet company tours the coast from San Francisco to Portland, playing standard classics such as "Goldilocks," "The Three Bears," and "King Midas." The public is cordially invited to attend.

No need to scheme, we claim, when you're that stunning. Pears Served As Vegetable in Main Course

MORE ideas for using up canned fruit, in anticipation of the new supply of early canned fruits and vegetables. Pears, if you are lucky enough to have any left in the cupboard, make a variety of salads that are attractive to see and delicious to taste. Fill halved pears with cottage cheese mixed with nuts, or roll them in mayonnaise and chopped nuts.

Roll halves in crushed cornflakes and bake in the oven until well heated through and serve as a meat accompaniment to substitute for a vegetable in the main course.

Dipped in egg and crumbs, or in batter, the pears make croquettes either for the main course or to serve with a sweet sauce and whipped cream for dessert.

Shredded coconut, slightly toasted and used as a coating for pears, makes the fruit into a fancy dessert, especially if the centers are filled with a sweet fruity mixture.

Cubed pears make a good cocktail when mixed with pineapple and flavored with a little candied ginger.

Rook Sponsored As Delicacy for the American Table

AN Associated Press dispatch from Washington, D. C., tells how the government is seeking to remove the stigma long attached to "eating crow" by releasing a bulletin telling housewives how to stew, fry and roast the young birds. Col. H. P. Sheldon, of the Biological Survey says it certainly is no humiliation to eat a young rook.

The bird is a popular delicacy in England and because crows often disturb the nests of quail, pheasant and waterfowl, western sportsmen are killing them as a protection, thereby furnishing a new delicacy to the American table.

Crow, dressed like other fowl, likewise is prepared like such fowl as quail. Stewing, roasting (with breast protected by bacon or pork) and frying are all said to be excellent ways to prepare the meat of young rook.

Newberg License Program Illegal

City Ordinance Upset by Supreme Court; Judge Walker Is Upheld

License fees which the city of Newberg has attempted to collect on wholesale trade vehicles are illegal and discriminatory, the state supreme court ruled in an opinion Tuesday, affirming Circuit Judge Arlie G. Walker of Yamhill county. The opinion, in a suit brought by the Bell Potato Chip company against Mayor Rogers and other Newberg officials to enjoin enforcement of the license ordinance, was written by Justice Kelly.

The ordinance sought to define a wholesale trade vehicle to include any traveling conveyance operated for the purpose of selling or delivering goods, wares or merchandise, except any article of food in its raw state or condition, which was actually grown or produced by the operator thereof or some member of his family, to any person in the city of Newberg for resale.

The license fee was fixed at \$6.25 per quarter year or fraction thereof.

Officials said the court decisions in this case were of particular importance to owners of wholesale trade vehicles which operate out of Portland.

IT'S AMERICA'S GREATEST 6-CYLINDER CAR!

Make Studebaker prove this daring assertion!

BIG 1937 STUDEBAKER DICTATOR

THE big, beautifully styled 1937 Studebaker Dictator six is taking them all... every last one of the nine other 6-cylinder cars—even going above its price class... and showing them all up. Down close to the lowest in price, its Fram oil cleaner and gas-saving automatic overdrive enable it to equal and often beat lowest priced cars in operating economy.

It's the world's first six to offer the automatic hill holder plus feather-touch hydraulic brakes... the world's only six with doors that close lightly, tightly and silently. But see it... drive it... price it... You'll agree we're speaking truth when we call it America's greatest 6-cylinder car. Studebaker's C. I. T. Budget Plan offers low time payments.
