

Projector Bought For Rural School

LABISH CENTER, March 25—The local school has purchased a 750 watt motion picture projector which will be used in showing educational films to the pupils. Several films from the state college have already been used. Funds for the machine were secured through programs presented by the children and a basket social sponsored by the Community club.

The diesel class being held in the basement of the schoolhouse under the adult education program of the WPA has changed its meeting night to Friday instead of Thursday, as choir rehearsals are held that night. Fifteen were present for the first class. Neal Dow is teacher.

Mr. and Mrs. E. B. Klampe entertained Friday night with a supper honoring their son Lyle on his 19th birthday. A line party at the theatre followed.

Borg Completes Probation Period For Homesteader

OAK POINT, March 25—Emil Borg made final proof last week on a four-acre tract of river bottom land, which he has been homesteading since March 12, 1934. This piece is about a mile north of the Oak Point school and just east of the highway. Mr.

Since going on the tract here, one of the few pieces of its kind available in the county, he has built a small house which is supported on high stilts to protect it from the high water, which always comes each winter. Except for a few months in the winter of 1935-36 he has lived there continuously, having one acre under cultivation.

The balance of the land is timber, mostly white fir that he is cutting and selling for pulp. After being cleared, the land will be fine for growing hops or any other crop.
