Garden Season Is Here Again

Spring is here again, bringing with it another garden season. But this landscaping and vegetable-growing business is not all a bed of roses, especially if you have to hoe them! At the first appearance of a seed catalogue in the house, more than one male shudders with a premonition of things to come. His sleep is troubled with nightmares in which hoes, spades and hand-cultivators figure prominently. Instead of coming home to find his pipe and slippers awaiting him, he finds a rake and a lawn roller on the doorstep. In short, then, even spring has its drawbacks!

Margaret Sullivan says Luckies are the answer for her throat

"I am not sure which is more critical—a Broadway audience or the movie microphones. At any rate, whether in Hollywood or New York, an actress has to be certain that her performances are always up to the peak. And that means being careful of the voice and throat. That's why, though I enjoy smoking thoroughly, I try to use judgment in the cigarette I choose. When I first began smoking, Luckies were my choice, because I found this light smoke advisable for my throat. And that's as true today as ever. Luckies are still my standby."

Margaret Sullivan

THE FINEST TOBACCOS—THE CREAM OF THE CROP

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke. Miss Sullivan verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.
