Coronation officials said they were not disturbed by the laborite Lord Marley's advice to Americans to stay away from the May ceremonies or be "generally exploited and overcharged." One said "no one takes him seriously." Lord Marley made his "warning" at San Francisco.

2. Define "system parties," (the political parties of the republican "system" or regime).

### Lighting Pacific Highway Favored

Lighting the Pacific highway from Portland to Salem and the Columbia river highway from Portland to The Dalles is being advocated by J. M. Devers, attorney for the state highway commission. Electricity necessary for the innovation would be obtained from Bonneville.  
Lights recently were installed at intersections on the Portland-Oregon City super highway and these will be given a trial. A number of tragic deaths have occurred on this highway recently.

Devers said a number of heavy traveled highways in the east were now lighted and that the innovation has proved satisfactory. The entire cost of lighting the

Oregon roads would have to be borne by the state highway commission unless arrangements could be made with the cities and counties to contribute.
