# Rising Steels **Boom Markets**

Virility Imparted to Mart as Steel Tows List up Fractions to 2

NEW YORK, May 22 -(AP)- A brisk rise in steels imparted vir-ility to the stock market today.

Fueled by news of well-sus-tained consumption of steel, leading issues drove ahead and helped tow the rest of the list forward for gains of fractions to 2 points or so.

Coppers and motors were quick to gather momentum after a cautious start. Stores shares had a resting spell, owing tn some measure to lower retail sales.

Measured by the Associated Press average of 60 shares the market was up .6 to 68.2. Transactions totaled 480,760 shares compared with 343,560 last Sat-

Bonds finished with gams and losses about evenly distributed. Cotton netted 45 to 65 cents a bale. Wheat closed 1/4 of a cent a bushel lower to 11/4 higher. Corn was 1/4 to 3 1/4 up. The pound sterling was up 1-16 of a cent at \$4.94%. The French franc yielded .00 1-16 of a cent to 4.46 1-16 cents,

Prominent on the share mar ket rise were U.S. Steel at 100%, Bethlehem 86%, Republic Steel 36%, Anaconda 54%, Kennecott 58%, American Smelting 88, Chrysler 113%, General Motors 57%, Goodyear 39%, General Electric 55 and Standard Oil of New Jersey 67 1/8.

Although rails improved they showed less aggressiveness than some other groups.

# Hop Markets Remain Quiet

New crop developments were being watched with increasing interest by the trade generally, although it was still too early to accurately estimate either acreare or production for 1937. Trade reports generally however, indicated that the crop was making fairly good progress after the late start, with more favorable weather prevailing during the

Oregon Markets Quiet Oregon hops markets were virtually at a standstill during the period, with no sales of either 1936 or older growths reported by Oregon growers. There were no further contracts for future delivery reported. 1936 crop hops were nominally quoted at around .35-40c per pound, net growers, while quotations on older growths were only nominal. Warmer weather prevailed in Oregon hops producing areas during the period and the 1937 crop was reported making favorable progress, although somewhat later than usual as the result of the late spring in this area.

Country meats—Seiling price to retail equotations.

Country meats—Seiling price to retail equotatio late spring in this area.

Trade reports continue to indicate that downy mildew infestation in this state has not yet become serious, being confined mostly to scattered areas, the hop plants generally being reported as strong and vigorous. Training of vines was reported progressing quite rapidly in Oregon yards. Slow in North, Too Washington hops markets were

also virtually at a standstill. Wet and cold weather this spring has resulted in the Puyallup valley crop being later than usual. Some downy mildew is reported devel-oping in that district although it is still too early to estimate possible damage.

Trading remained at a standstill in California hops markets during the past week, with no sales of either spot hops or contracts for future deliveries reported by growers. The general market tone however, remained fairly steady with lack of any important inquiry from dealers about counter-balanced by light selling pressure from growers. The complete absence of trading made the establishment of accurate market values difficult but quotations generally were nominally unchanged compared with a week ago. Growers continued to hold their light remaining stocks of 1936 hops at 35c to 40c per pound and 1935 hops at 20c to 25c per pound. Most Yards Have Mildew VEGETABLES

Salem Market Quotations

## **Anti-Liquor Aims** Told 20-30 Club

Objectives of the Anti-Liquor league of Oregon were explained by the organization's superintendent, Hayward H. Johnson, at Friday night's meeting of the Salem Twenty-Thirty club.

These objectives include education of youth in the scientific facts about alcohol, prohibition 98s, \$7.65-8.05; bakers', hard wheat \$6.25-8.10; bakers' bluestem, \$6.05-6.85, blended hard, \$6.05-7.40; graham, \$6.50-6.70; whole wheat, \$7.10-7.30 barrel. of advertising which will encourage young people to drink, banning minors from any place of business where liquor is sold, and care of its victims. Spot wool on this market received little attention during the past week. Quotations on original bag line territory wool were steady to only slightly lower despite limited demand.

Mr. Johnson quoted authorities to the effect that two ounces of alcohol, an amount found in four bottles of beer or one cocktail, would slow the brain's reaction automobile going 60 miles an brakes, a difference which might car per day market. cost a life.

The state convention of the Anti-Liquor league will be held Monday and Tuesday in Portland Mr. Johnson announced. Rev. Guy Drill of Salem will be one of the speakers.

## Gardeners' and Ranchers' Mart

PORTLAND, May 22-(P)-Trading and supplies were moderate on the Gardeners' and Ranchers' market today.

Lettuce prices remained steady and unchanged, in the face of heavy receipts, with quotations for California stock falling to a low of 50c a crate. Potatoes continued dull, with

old stock prices having a downward tendency, and the new holding steady. Supply exceeds demand on the

strawberry market, forcing quotaions down. Lions down.

### Wheat Hit by **Bull and Bear** Call 9101

**Bullish and Bearish News Produces Advance That** Is Lost Later

CHICAGO, May 22 -(AP)- The wheat market digested a mixture of bullish and bearish news today with an advance of 11/2 cents a bushel that later was partially lost.

Unexpected gains of Liverpool wheat prices and a wide upturn in Chicago corn, with May corn rising to a new 12-year peak of \$1.35%, more than offset re-ports of much-needed rainfall in important wheat producing areas southwest which served to influence selling, giving the market a nervous, ragged appearance at the close.

Selling of May wheat was resumed late in the day and that contract lost all of the upturn New wheat crop futures held most of their gains, however.

Wheat closed % lower to 1% higher compared with Friday's finish, May 1.28 4, July 1.21-%. Sept. 1.20 % - 1/4; and corn was 14-3 14 higher, May new 1.35 14.

July 1.22 %-%. Sept. 1.12 14-%.

Oats gained 14-14. May 51 14.

rye 14-1 cent. May 1.17 14. and provisions were unchanged to 20 cents higher.

Strength abroad was attributed to better English milling demand and prospects that Germany may need more foreign grain. The weather map showed gen-

erally dry conditions in the spring wheat area both sides of the In-ternational border, but Ibleral precipitation was received throughout much of the southwestern winter wheat belt, except in the extreme west.

## Stocks old Spuds Moving out Fast

Supplies of old potatoes in Oregon, Washington and Idaho continue to diminish. Although Oregon reported only 40 cars shipped during the week and Washington 9 cars, there has been a heavy truck movement which almost supplants that by rail. Idaho shipped 409 cars, bringing that state's total movement for the season to 27,622 cars or 3,861 cars more than were shipped during the entire season one year ago.

Washington's total potato movement is 4,582 cars and Oregon has 6,276 carloads to its credit for this season. Besides the heavy movement from Klamath county, there was a considerable tonnage loaded in the Tule Lake basin immediately making the liquor traffic pay for the damage it causes and take available, it has been variously marked and can be used only for a sold, and across the Oregon state line. Most of this money is ear-available, it has been variously marked and can be used only for a sold across the Oregon state line. Most of this money is ear-available, it has been variously marked and can be used only for a sold across the Oregon state line. Most of this money is ear-available, it has been variously marked and can be used only for a sold across the Oregon state line. Most of this money is ear-available, it has been variously marked and can be used only for a sold across the Oregon state line. Most of this money is ear-available, it has been variously marked and can be used only for a sold across the Oregon state line. estimated that this movement may approximate 1,500 to 2,000 raised, the state treasurer said. additional carloads which are shown as northern California. New potatoes are now rolling heavily from Alabama, Louisiana by two-fifths of a second, which and California, with Texas and translated into the speed of an Florida season about finished. Shipments from California are hour, would make a difference of entering midwestern markets and 36 feet in the time of applying the output is well above the 100

## **Old Crop Onions** Is Under 20 Cars

Old crop onions in the northwest have almost made their exit for this season. Cold storage holdings are now estimated to be less than 20 cars in Salem, Brooks and Portland. Prices on large sizes in the San Francisco market have recently been fairly attractive with sales as high as \$1.75 for 50-pound sacks. The quality of remaining supplies is questionable and much of the remainder will show loss in repacking or be used entirely for local markets.

New crop onions continue to roll heavily from Texas, but California is rather slow in getting under way. Carlot loadings will get under way during the next two weeks. Thrip has shown up and caused a reduction in size; however, the quality is good. There are few seeders in the crop this year, but weather lately has caused the development of con-siderable mildew and the onions are not making size. Yields will be considerably under those expected three weeks ago with most of the acreage producing

medium-eized onions. In Merced county a few early reds of the intermediate se acreage are being harvested for local market use. There is some mildew but at this time about the usual infestation.
