Drums Beaten to Prove Insulation

Significance of De Soto's New Equipment Shown By Novel Means

They're beating drums these days in De Soto salesrooms, not to duplicate the clatter and din that drives thousands of fathers wild on Memorial day, but to illustrate the modern advancement in insulation that makes 1937 cars sound-proof, according to word received by W. L. Anderson, Inc., 360 Marion street, De Soto agency here.

Taking an ordinary child's toy drum of the "loud-speaking" variety, De Soto removed one of the metallic heads and backed it with the same type of insulation used in the new car. The other drum-head was left "as is." Now salesmen in hundreds of showrooms throughout the country, beating first one side of the drum and then the other, are showing visitors the importance of proper insulation in making car interiors quiet and noiseless.

De Soto's car bodies are more thoroughly insulated this year than ever before. Road noises and objectional drumming, as well as heat and cold have been sealed out through generous use of many new types of sound-deadening material.

Bright Colors Spring Car Styles

Color charts kept by the De Soto sales organization reveal that lighter colors like gray, green, blue and beige are cutting into the popularity of the traditional black in the matter of automobile styles as well as in women's dress this spring. Above, a chinchilla gray De Soto matches the silver-gray of the new Mainliner plane. The De Soto is sold in Salem by W. L. Anderson, Inc., 360 Marion street.

impregnated with asphalt, is used under the one-piece seamless steel roof and on the upper rear quarter and the cowl sides of the car. It is carefully cemented to the metal.

The floor boards in the new De Soto have been fitted tightly and sealed around the edges with felt. The welding of the instrument panel to the cowl also seals that opening to prevent sound from creeping in.

Extensive Tourist Influx Is Assured

Inquiries for information regarding Oregon and other north-west sections are being received at the state highway department tourist bureau at the rate of 500 a day, Harold Say, director, reported.

Say's records show that more than 20,000 of these inquiries have been received since January 1.

Most of the writers ask regarding Crater Lake, Josephine county caves and beach resorts.

Say said the letters indicated that Oregon would have the heaviest tourist travel this year in its history.

CHEVROLET OWNER LOYALTY

EXPRESSED BY THIS BUYER OF 21 CHEVROLETS

B. F. DUNN, TEXAS RANCHER, AND HIS 21st CHEVROLET — ALL BOUGHT FROM THE SAME CHEVROLET DEALER

THE ONLY COMPLETE CAR — PRICED SO LOW

Mr. Dunn's 1937 Chevrolet parked in front of his ranch house near Colorado, Texas.

Mr. Dunn tells Joe Mills, Chevrolet dealer, "This is the best Chevrolet ever built!"

HERE IS MR. DUNN'S OWN STORY OF HIS EXPERIENCE WITH CHEVROLET MOTOR CARS:

"Buying another Chevrolet has become an unbreakable habit with my family and me—so much so, that we are now driving our twenty-first consecutive car of that make. Another part of the 'habit' is that we always buy from Joe Mills, owner of the Mills Chevrolet Company, our Chevrolet dealer in Colorado, Texas. As the big spaces of Texas test both cars and friendships, I think our long-time loyalty says much for the dependability of both the Chevrolet car and our local Chevrolet dealer. While we can get values like these, nothing but Chevrolet will satisfy us."
