Festival Buttons—Advantages of purchasing Portland Rose Festival buttons in Salem were explained Monday by members of the Cherrians committee in charge of the sale. The money derived from the sale goes into the fund to construct the Salem float, whereas if admission to the festival events is purchased in Portland, Salem does not benefit. In addition, the cost is less if the button is purchased here. The Cherrians have opened a booth in front of the First National bank for sale of the buttons. Tickets for the Cherrian special train to the festival Friday, also may be purchased at this booth.

Mexico's Tourist Lures Described

The tourist attractions of Mexico and particularly of Mexico City were described by Victor M. Tafel, Mexican consul in Portland, and Harry M. Niles, Portland chief of police, in talks at the Salem chamber of commerce luncheon Monday noon.

Mexico now has a stable government with revolution a thing of the past, Mr. Tafel said, and law and order prevail. There is an excellent highway from the California border to the nation's capital, with no grade of more than 6 per cent. The entire route enjoys a temperate climate.

Although the cities are modern, the tourist will find along the way people who live as their ancestors hundreds of years ago did, Mr. Tafel said. The cities also afford interesting studies in the early civilization, notably the cathedral in Mexico City, which was started by the Aztecs as a temple for worship of idols.

Increase in Use Of Library Seen

Meeting for the last time until fall, the board of trustees of the Salem public library last night heard the report of James T. Rubey, librarian, in which it was pointed out that the circulation of books by the institution from January to June of this year exceeded circulation for the same period last year by nearly 14,000. Similarly, the registration of borrowers has increased more than 1,200 over last year, having reached a total of 16,942.

The board approved a month vacation period for the year 1937 for all members of the staff, the established two-week period being extended this year because of the availability of extra part-time assistance.

On Wednesday, June 9, the library will conduct a "homecoming for books." On that day no fines will be charged, "nor questions asked." This type of campaign, successfully used by libraries throughout the country, seeks to bring about the return

of long-overdue, strayed and lost books, which patrons hesitate to return because of accumulated fines.

HOME OF GOOD USED CARS

This sequence of four pictures shows the superb form of Dorothy Poynton Hill in the graceful but dangerous FORWARD SOMERSAULT off the high board.

After a smart take-off (above), Dorothy uses the weight and position of her head to spin her body around. This shows her mid-air position.

Instead of the "pike" with body bent at hips—Dorothy executes the somersault the hard way—by the "layout" with body outstretched.

With hardly a stir, Dorothy cuts into the water. It's a perfect dive. And gives you a good idea of how healthy Dorothy Poynton Hill's nerves are.
