U. S. Comptroller Advises
Class of '37 Loyalty,
Integrity Important

(Continued From Page 1)

English literature; Jean Hollingsworth, French; Charlotte E. Eyre, Latin; Marion Chase, music; Verdel Ragsdale and Frances Faber, physical education; Arthur Miller, political science; Elizabeth Brown, Spanish; Katherine Ringe, speech; Elizabeth Taylor, sociology.

The Ladd & Bush Trust company prizes of \$20 and \$10 for the law students writing the best were Dewey Palmer and John C. Schneider.

Rachel Yocom was awarded the Women's Athletic association senior cup. The J. H. Booth athletic prize was awarded Charles Versteeg, while Margaret Doege received the \$10 scholastic prize made possible by the class of 1919. The \$25 Joseph H. Albert prize went to Willard Sutton. George Self was awarded the Col. Percy Willis prize of \$25.

Additional awards included:

Four year speech, Randall Kester and Lawrence Morley.

Cardinal blankets for four years of athletic endeavor:

Baseball—Dwight Aiden, Don Burch, Walter Commons, Bill Sutton.

Football and track—Jack Connors.

Football, basketball and baseball—George Erickson.

Tennis—Joe Harvey.

Basketball—Harry Mosher.

Football—Manfred Olson, Charles Versteeg.

Alumni Reunion Banquet Held

Immediately following the commencement exercises the annual alumni banquet was held at the First Methodist church with Hugh McGilvra, president, presiding.

A welcome to the class of '37 was extended by the president and Randall Kester, president of the graduating class, spoke briefly.

Classes which were introduced and given special tribute were those of 1887, 1912, 1917, 1919, 1922, 1927 and 1932.

Clarence "Pat" Emmons of Salem was unanimously elected president of the association for the coming year and John L. Gary of West Lin was elected first vice president.

Other officers are Harold Hauk, second vice-president; third vice-president, Mary Parangian; secretary, Fay Sparks; members at large, Mrs. Asa Fisher, Oliver Crowthers, D. Verne Bain; alumni members elected to the board of trustees, Robert Notson and Edward Averill.

Dr. Bruce Baxter, spoke informally telling of the progress of the school this year.

Rodeo Queen Bags a "Smoothie!"

Mounted on a Goodrich "tire horse" built from tires and accessories, Beverly Spooner, Queen of the Ellensburg rodeo, bags a "smooth" tire dangerous to highway safety. The rodeo queen featured the annual "roundup" of unsafe tires conducted by Goodrich Silverton Stores and dealers. The B. F. Goodrich company is the pioneer safety crusader among tire companies. Walter H. Zeele is manager of the Goodrich Silverton store at 198 South Commercial street in Salem.

Basque's Defense Lines Are Broken

(Continued From Page 1)

surgeants would not fight in the streets.

Davila's soldiers opened a gap two miles wide in what the Basques had called an impenetrable line to the east. The defenders, battered by a terrific air and artillery bombardment which lasted half the day, retreated over the last ridge between the insurgents and their goal.

Insurgent sources at Hendaye, on the Franco-Spanish border, declared the attackers had opened a clear way to Bilbao and were firing into the city from nearby heights.

A British destroyer was reported ready at St. Jean de Luz, France, to take officials of the Basque republic out of Bilbao if necessary.

The agreement among Britain, France, Germany and Italy which would bring the two latter powers back to the non-intervention scheme provided that:

1. All warships of the neutral patrol could defend themselves but none should take retaliatory action for an attack without consulting the other three.

2. The two Spanish administra-

Early Travel to Crater Is Heavy

CRATER LAKE NATIONAL PARK, Ore., June 12—(Special)—

Showing a substantial increase over 1936, the current travel year to date has already brought nearly 35,000 visitors to Crater Lake. With this number as an early season indication, Superintendent David H. Canfield estimates that at least 200,000 people will visit the southern Oregon scenic wonder in 1937. Last year had a total of 180,699.

Over 10,000 visitors arrived during the month of May, with travel particularly heavy on weekends. Approximately 3,000 visitors arrived over the Memorial day holidays, including quite a number from out of state points. While the season is still young, every state in the union has already been represented by visitors, as well as several foreign countries.

A British destroyer was reported ready at St. Jean de Luz, France, to take officials of the Basque republic out of Bilbao if necessary.

Artillery Leaves For Annual Camp

(Continued from page 1)

Other units located at Klamath Falls, Ashland, Cottage Grove, Marshfield and Albany will arrive the same day.

The artillerymen will stay at Camp Clatsop this year, since the Oregon Infantry regiments will not be there, but will move to Fort Stevens for practice on alternate days.

The encampment will be in command of Colonel Clifton M. Irwin of Salem and Headquarters battery, of Captain Arthur B. Bates.

Company B, 162nd Infantry, will spend its annual encampment period this year at Fort Lewis, Wash., participating in divisional maneuvers.

**Bibles to Be Presented
To Circuit Courts Here**

Two Bibles donated by the Business Men's Bible class of the First Methodist church will be presented formally to the Marion county circuit courts at 1 p. m. Tuesday by Rev. E. S. Hammond.

Judges L. H. McMahon and L. G. Lewelling will respond.

Cornerstone's Laying Related

provements and appliances for water, heating, ventilation, and drainage. The building will be finely lighted and will present an appearance of elegance and solidity.

"The structure has thus far been carried forward by the use of 3000 perch of rough stone, 4000 feet of dressed sandstone, 1,300,000 brick, 2000 barrels of lime, and 500 barrels of cement. Cost to the present time is \$45,000 gold, economically applied. The brick have come from the penitentiary yard, and the lime and sandstone from Douglas county quarries, which are of first class character.

"All the work, as far as possible, is to be constructed of Oregon material, by Oregon labor. The cost of the building will be half a million dollars.

"The ceremonies of laying the cornerstone will now proceed according to the Ancient Masonic form."

Articles Placed in Cornerstone Listed

R. P. Earhart, grand secretary of articles, read the list of articles to be placed in the cornerstone. In all, 83 articles went in, ranging from "a pebble picked up by Henry Giffrey under the north cave of the tomb of Washington" to "a copy of the constitution and laws of the state Oregon."

Many of these articles might seem strange to modern eyes. For example, "a detailed description of a modern sewing machine" or "a map of the heavens showing the situation of the planets at 12 midnight at Salem, Oct. 8, 1873"; or a "Morse alphabet, numerals, signals, and abbreviations of the system of telegraphy" or a "photographic copy of The London Times, of Dec. 25, 1870, sent into Paris by carrier pigeon during the investment of that city by German troops."

After these ceremonies were over, as a newspaper account stated, "As the clouds threatened rain, the procession moved to the chapel of the Willamette university, where the address of S. F. Chadwick, secretary of state, was delivered. It was long, delivered plainly, though rapidly, and was listened to with marked interest by every member of the vast audience. It is in itself an encyclopaedic history of our young state, and full of excellent suggestions. It should be read by every voter in Oregon."

So the ceremony concluded, and the cornerstone of the capitol building that served Oregon for 61 years was firmly laid in place.

After these ceremonies were over, as a newspaper account stated, "As the clouds threatened rain, the procession moved to the chapel of the Willamette university, where the address of S. F. Chadwick, secretary of state, was delivered. It was long, delivered plainly, though rapidly, and was listened to with marked interest by every member of the vast audience. Northwest Union Row Is Continued

(Continued From Page 1)

the merits of CIO explained at the convention, July 15, in Tacoma before action is taken.

Frank Chapman, Puget Sound district council member, charged that the referendum move threatened to split the ranks of the federation.

Pritchett answered several personal questions shot at him by Chapman. He denied having a fine of \$100 facing him from the shingle weavers union, declaring it was an assessment placed by the union on members coming into the states from Canada. He denied promising Harry Gross, Portland attorney, the right to handle legal affairs of the federation if it is affiliated with CIO. The president also made a denial that he had joined the Grays-Willapa harbor local union.

He admitted having been expelled with other officers from the Vancouver-New Westminster labor council. Pritchett termed it the result of unfair tactics by international officials.

PORTLAND, Ore., June 12.—(P)—The Maritime Federation of the Pacific, in convention here, asked today for a "new and fair trial" for Earl King, Ernest G. Ramsay and Frank J. Conner, defendants in the Point Lobos murder case.

The action followed five days of bickering over voting strength, involving rejection by Inland Boatmen's union delegates of a proposal by the credentials commit-

tee that I. B. U. votes be grouped with those of the International Seamen's union. A compromise giving the I. B. U. delegates 2 1/3 votes, proposed by William Fischer, president of the federation, was accepted.

Stream Purifying Bill Is Planned

(Continued From Page 1)

PORTLAND, June 12.—(P)—The committee on procedure of the Oregon stream purification league took its first step toward cleaning up Oregon streams through the process of an initiative measure today. It is planned to place the proposed measure before the voters of the state in November, 1938.

State Senator Byron G. Carney, chairman of the committee, said the league had begun intensive study of the sewage and pollution problem with the initiative as its goal. After terms of a bill, to be prepared by a sub-committee, have been agreed upon it will be initiated by petition. The grant and various other organizations will aid in circulating the petitions, Carney said.

Troopers Probing Story of Meyers

(Continued From Page 1)

checking up on a previous statement by Meyers that he was employed on a farm for several years ago. Fingerprints of Meyers and those received from the officers prior to their arrival here also were being checked.

Meyers has denied that he had any part in the crime or that he ever lived in Pennsylvania. He will fight extradition.

Officers said Meyers was alleged to have killed two men but the indictment mentioned only the name of Brown.

Meyers was arrested at his home here two weeks ago. He has a wife and three small children.

Railroad may Aid In Flood Project

George Ferren, Southern Pacific division engineer, has agreed to discuss with his superiors a proposal to resume the Mill creek flood control project in which cooperation by the county, state, city and the railroad company is contemplated, according to County Engineer N. C. Hubbs. While units of the project were under way about three years ago the Southern Pacific provided heavy machinery used in clearing the Mill creek channel and building dikes.

**Parrish Gap to Retain
Tracts; Petition Denied**

The petition of Mark Hamby and others to attach two small tracts of land now in the Parrish Gap school district to the Jefferson district was disallowed yesterday by the boundary board. The board based its rejection on a lack of sufficient showing in favor of the change.

SIGNS OF SINUSITIS

By A. T. Woolpert of
Woolpert & Legg, Drugs

The eight sinus cavities in the head are as much a part of the healthy human system as the nose, eyes or teeth.

Modern living conditions, particularly late hours, dust, cold infections, lack of sunshine and fresh air often result in sinusitis, an infection of the sinus cavities.

Sinusitis is manifested by inflammation of the eight sinus cavities, by congestion, by pus discharges, and by excruciating pain.

Sometimes surgery is indicated for permanent relief. More often a change of diet, plenty of rest, toning up of the system and proper medication will relieve the sufferer.

Consult your doctor for competent advice. Have his prescription fully filled by a reliable druggist.

Murder Theory Is Viewed in Kidnap

(Continued From Page 1)

ceived threat notes, and that the authors of the ransom note had been contacted, but all the reports were officially denied or remained unconfirmed.

Lacking any tangible clues, investigators turned their attention to a 36-year-old naturalized Russian woman who had lived on the Parsons' squab farm with her 11-year-old son since 1931.

She was Mrs. Anna Kurpianoff, who adopted the name Parsons when she became a citizen and

whose status in the household has been variously described as companion and servant.

Asst. Dist. Atty. Harry Brunner denied a published report that he said Mrs. Parsons and Mrs. Kurpianoff had drawn up reciprocal wills.

"There were no reciprocal wills between the two women," he said, "and as far as I know, Mrs. Kurpianoff has never drawn up a will. As far as I know she has no property that could be used as the basis for such a reciprocal agreement."

Federal agents questioned her and her third husband, Alex, for several hours last night in the bay shore barracks of the state police. Neither was detained.

Sterling from Hartman Bros.

AVAILABLE TO ALL ON
THE 10-PAYMENT PLAN

Every woman looks forward to owning Sterling, the table silver of character which is destined to give a lifetime of service and retain its full beauty . . . Hartman Bros. make it convenient for you to own all the lovely Sterling you want by budgeting your payments over a period of ten months without any extra cost above the nationally established price. For example:

30-Piece Set

\$75.50

Service for 6

(\$7.50 Month)

A 30-piece set may include 6 Knives, 6 Forks, 12 Teaspoons and 6 Salad Forks.

CHEVROLET TRUCKS

Chevrolet users say:

"They're the most economical trucks for all-round duty"

Perfected Hydraulic
Brakes . . . Greatest
Pulling Power in Their
Price Range . . . New
Steelstream Styling

CHEVROLET

FOR ECONOMICAL TRANSPORTATION

"Give us a truck with ample pulling power . . . one that is economical . . . one that will give reliable service over a long period for the least money."

That is the demand of all truck operators, and thousands of Chevrolet users will tell you that the best answer is—Chevrolet trucks!

Chevrolet trucks have the greatest pulling power in their price range . . . because they have a New High-Compression Valve-in-Head Engine which wrings the last ounce of power out of every gallon of fuel.

Chevrolet trucks are the most

General Motors Installation Plan—monthly payments to suit your purse.
CHEVROLET MOTOR DIVISION, General Motors Sales Corporation, DETROIT, MICH.

economical for all-round duty . . . because they give maximum gas and oil mileage, and will keep on serving over a long period with minimum care and attention.

And Chevrolet trucks are safer, more modern, more durable . . . because they're the only low-priced trucks with Perfected Hydraulic Brakes, New Steelstream Styling, Pressure Stream Lubrication, and extra-strong Chevrolet construction throughout.

Ask your nearest Chevrolet dealer for a thorough demonstration—today!
