Wheat Values Down 21 Cents

Better Domestic Harvest Conditions Factor in Drop of Prices

CHICAGO, June 19 -(P)-

would result in decidly heavier offering of shipments to Europe via the Gulf of Mexico, causing augmented selling pressure

Adding to bearish sentiment relative to wheat were late advices that domestic harvest yields Oklahoma in particular, were turning out 5 to 7 bushels bet- 3.00, common to medium yearlings 4.50-5.50, few to 6.00; good to choice ewes 2.25at numerous places southwest, ter than expected.

Chicago September contracts led today's wheat decline here reaching a low of \$1.06 1/4, with final quotations \$1.06% - 1/2. Corn, oats and rye followed the action of wheat.

Provisions lacked aggressive buying support.

Farm Bloc Seeks To Bolster Grain

WASHINGTON, June 19-(AP)-The house farm bloc has asked agriculture department help in halting a decline in wheat prices which, members said, has cost the country's farmers about \$200 .-000,000 on the current crop in the past two months.

The bloc, composed of prairie states congressmen, arranged a conference for next week with resentatives from wheat states to outline their problem.

Representative Ed Eicher Washington, Iowa, bloc chairman, said cash wheat prices on the Chicago exchange had declined from an April 3 high of \$1.49 a bushel to \$1.21 a bushel on June 12, and that futures declined correspondingly.

Representative Henry C. Luckey. Lincoln, Neb., chairman of a subcommittee appointed to confer with Wallace, and other wheat area congressmen suggested that federal crop loans would allow the farmers to hold their current crops from market until prices have improved. This would, he said, in effect "peg" wheat prices.

Stimson Workers Spurn Agreement larger than a year earlier.

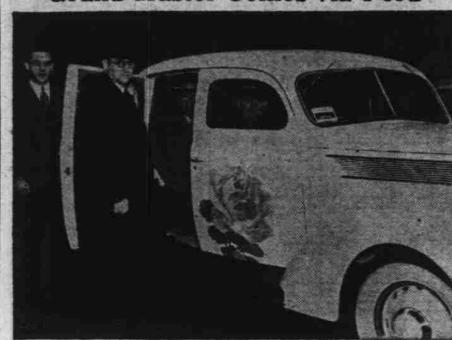

FOREST GROVE, June 19 .-P)-The verbal agreement offered by Harold Miller, general superintendent of the Stimson mill in Scoggins valley, was rejected by a unanimous vote of the Lumber and Sawmill Workers, local 2504. The mill has been closed since May 24 when 198 employes joined the local union, in addition to the 60 members who were already members, and demanded wage adjustments.

A verbal agreement was offered by the mill management but a signed contract was refused unless the employe group agreed to post a performance bond to insure responsibility for its part of the bargain.

1854 Baby Dress Offered, Museum

R. Frank Peters, grand master of the Masonic lodge of Oregon, steps into his especially appointed Ford V-8 which brought him from Portland to Salem Thursday to preside over cornerstone laying ceremonies at the new capitol.

Fraction of Point as Few Trades Made

NEW YORK, June 19 -(AP)-Stocks moved unevenly within a narrow compass and got nowhere today in the slowest Saturday trading in two and a half years. Among the 20 most active shares, the widest price change coppers were mostly a little lowutilities perked up for a while, but interest died and they finished about unchanged. Steels,

motors and oils were mixed. Keepers of the records had to go back to Oct. 27, 1934, to find a day in which transactions were fewer than the 220,950 shares traded today. At the finish the Associated Press average of 60 stocks was down .2 of a point to

Traders were obviously waiting for some sort of a break in the steel strike situation.

Some bargain hunters were on hand at the opening and their bids carried a part of the list higher.

Greater activity appeared in the oils, but they sold very closely lined with yesterday's closing Shares moving up a little in-

cluded American Can, 9414, and General Foods, 3714. U.S. Steel dropped % at 95% Other losers were General Motors at 50, Northern Pacific, 29 %, Anaconda copper, 50 %, and Case, 163.

7 Th . Higher Prices on Cattle Is Forecast

With small marketings of grain fed cattle in prospect for the remainder of 1937, the Bureau of Agricultural Economics believes that prices of the better grades of slaughter cattle probably will be higher in late summer and fall than a year earlier, and possibly higher than in early spring. And the seasonal decline in prices of the lower grades of slaughter cattle may be less than usual be cause of the relatively strong demand for meats and hides and the prospective increase in demand for replacement stock if feed crop conditions are about normal.

Because of increased consumer demand for meats and the higher prices for hides, prices paid by packers for cattle averaged 13 per cent higher in the first quarter of 1937 than a year earlier. The most logical assumption at this time is that the demand situation will continue favorable relative to 1936, and slaughter supplies of cattle probably will be smaller in the last half of 1937 than in the corresponding period of 1936. Hence cattle prices during the remainder of the year are likely to continue to average higher than

A larger than usual proportion of the marketings of western cattle this year will originate in the southwest (Texas, New Mexico and Arizona) where grazing and feed conditions from last summer to date have been relatively favorable. In view of these favorable feeding conditions and the larger number of cattle on feed in this region this winter than last, it is expected that the movement of cattle from this region during the spring months (March-June) will total about 10 per cent

Mrs. Jacob Davidson. He was born here August 15, 1854, and died in San Francisco in 1925. Governor Martin referred the letter to Secretary of State Snell who is custodian of state buildings and grounds.

Saturday Trading Huge Truck Fleet Slowest in Years Bought, New York

Widest Price Change Only Million Dollar Contract for General Motors; Plant at Capacity

An order for 300 new heavy duty General Motors trucks of the cab-over-engine design, valued at \$1,221,000, has been received from the New York city department of sanitation which will employ the units for garbage was % of a point. Rails and disposal and snow removal, it was announced today by J. P. Little, vice president directing

This is the second big fleet or der New York has placed with General Motors truck division in recent months, delivery of 315 similar trucks having been completed only last March.

The trucks will have a gross load of 37,000 pounds and will be equipped with special front end attachments for push-type snow plows to be used for plowing and piling snow and for disposal into the manholes of the city sewage system.

Operate at Capacity General Motors truck division. according to Mr. Little, has been operating at capacity since introduction of the 1937 series of trucks which match an impressive group of mechanical advancements with greatly improved appear ance value resulting from modern stream-styling and dual-tone color design.

Due to their exceptionally large capacity, the General Motors trucks already in service at New York are reported to have effected important savings in both time and money for the department of sanitation.

They are equipped with 24yard-capacity dump bodies of special design mounted on drop frames to facilitate loading from the street level and thus save labor costs. The operators employ a unique loading technique which assures each truck carrying its full capacity.

Spring Lamb Crop movement of shorn yearlings and wethers from Texas in April was

The early spring lamb crop this year is somewhat smaller than that of last year and marketings of spring lambs have been delayed somewhat because of unfavorable weather and feed conditions, the bureau of agricultural economics reports. With relatively small marketings of new crop lambs in prospect until after June, the seasonal decline in

prices of such lambs probably will occur later than usual this

Sheep and lambs in the western states generally are in good condition and prospects are rather favorable for the late lamb crop. It is possible that the delay in marketings of early lambs w result in a larger-than-usual increase in marketings of lambs in the late lamb marketing season after July. In this event the seasonal decline in lamb prices, while occurring later than usual, may be greater than average.

Marketings of early lambs from southern California, Arizona and Texas in April and early May were fairly large, but small shipments came from other areas. The movement of shorn yearlings and nearly the largest on record. It Is Under Normal is likely that marketings of Texas yearlings, wethers and spring lambs will continue large through June, probably resulting in total slaughter supplies of sheep and lambs larger than a year earlier. Diego, Calif.
