

Export Trade Boosts Wheat

Possibility of Drouth in Argentina, Australia May Help Rise

CHICAGO, July 27.—(AP)—Wheat soared 4 1/2 cents a bushel, maximum, in Chicago today largely on account of renewed large-scale export business in United States wheat.

Anxiety about likelihood of big damage by drought to wheat crops in the southern hemisphere furnished the chief immediate incentive for the upshot of prices, as well as for sudden broadening of the volume of wheat export trade. Purchases of 700,000 bushels of United States wheat today to be shipped to Europe took place, as well as an equal amount of Canadian wheat.

U. S. Position Favorable

Trade leaders here asserted the United States is now the only country which can supply large quantities of wheat to overseas importers in the next few months, and that droughts in large sections of Argentina and Australia have apparently awakened European consumers to necessity of accumulating breadstuffs supplies for future needs.

At the close, Chicago wheat futures were at virtually the day's top level, 1 1/4-1/2 cents above yesterday's finish, July \$1.82 1/2, Sept. \$1.81 1/4, Dec. \$1.80 1/2. Corn 1 1/2-1/4 lower to 7 1/2 higher; July \$1.02 1/4, Sept. 97 3/4, Dec. 73 1/4; on unchanged to 1/4 up, 3/4, and rye showing 3/4 to 7/8 cents bulge. Sept. 82. The outcome in provisions was unchanged to 5 cents advance.
