The purchasers are men of wide experience in the lumber business and will begin the erection of a large mill on the new site the first of the month and being in proximity of heavy stands of timber will begin operations as early as possible.

Other sales made by Dr. Davis were the T. T. Anderson five-acre plot, formerly the Burbee place north of town, to Pete Whitaker and Charles Bowers' ten-acre lot to B. C. Watts of Gardena, Calif. J. E. Estep, realtor, has sold the Frank McKinney modern home to Mr. LaRow, a Southern Pacific employe.

Any Age May Bring Film Stardom

One of the most noticeable trends in Hollywood is the manner in which the film colony has raised its age limits. Not long ago stars were considered well along when they reached thirty. Now many of those who play romantic leads are past forty. But most amazing aspect of this situation is the way in which some of the veterans have won success at the age of sixty or even seventy. C. Audrey Smith is one of the outstanding examples in this category. He is 74 this month and will have an income of about \$100,000 from the eight pictures which he is making this year. May Robson, W. C. Fields, Alison Skipworth, Lionel Barrymore and Lewis Stone are other veterans who are among the most active and well-paid of Hollywood players.

Mail Service may Be Improved, Scio

Switch in Routes Would Give two Deliveries Daily via Albany

SCIO—Double daily mail service between Scio and Albany by way of Lebanon is contemplated by the federal postal department, according to recent official information from the railway mail service at Portland.

This is the division having charge of star mail routes, by which Scio is served. This also is Scio's only direct connection with railroad postal service, although Jefferson on the main line of the Southern Pacific, is only 9 miles from Scio. Albany is 13 miles by highway, and approximately the same by way of Crabtree, which is included in the present mail schedule between Albany and Scio.

At present there are two star routes between Albany and Lebanon. A separate route recently was established as a result of objection of the contractor on the previously existing route to cancellation of his contract prior to its normal termination June 30, 1938.

This prevented consolidation of the service at the time of the change, which is said to have been desired by the postal department.

Effective with the new star route contract term commencing July 1, 1938, it is understood to

be the intention of the department to discontinue both these routes between Albany and Lebanon and merge that service with the present Albany-Shelburn route which supplies Scio.

Under the new plan, to be inaugurated 11 months hence, it is said there will be little change in schedule. In fact, the new star route should result in improvement of the Scio service in that this city will have direct exchange of mail with Lebanon by the carrier.

Nothing is said in connection with the change as to whether Sunday service is contemplated. Official information in this particular service may be available soon.

VAN-TAGE EASED HEADACHES AND NEURITIC PAINS!

Mrs. Selby Had Sour, Gassy Stomach, Constipation, Awful Headaches, Neuritic Pains. Now Praises Van-Tage.

Thousands of men and women throughout this Salem area—people who had been suffering for years—are now praising and

MRS. MAMIE SELBY

endorsing VAN-TAGE, the "Amazing New Medicine," now being introduced to crowds daily in this city through N. Liberty street. For instance, the Remarkable Statement, published below, was just recently received from Mrs. Mamie Selby, of 3918 N. E. 7th Avenue, Portland. Mrs. Selby wants everyone to know how Van-Tage helped her. Read her statement through and through. It follows.

Constipation and Gassy Stomach, Sharp Pains

"For several years I suffered almost constantly with my gassy stomach," said Mrs. Selby. "After I ate a meal my food seemed to lay in my stomach for hours and turn sour and bloat me up so tight with gas that it would make my heart flutter and jump. I was always short of breath from this bloat and felt tired and worn-out for I couldn't get much sleep on account of this gas and bloat keeping me awake most of the night. I kept having bad headaches from this terrible condition of my stomach. I guess poor elimination and distention caused a lot of wastes and poisons to collect in my system, for I had neuritic pains all through my arms and shoulders that felt like sharp knives, and my limbs were always stiff and sore."

"Then I started taking Van-Tage, and it certainly has given me wonderful relief. It helped clear out a lot of the awful gas and bloat, bringing relief from that tight, stuffy feeling and shortness of breath, and for the first time in months, I can go to bed and sleep at night without suffering from gas pains and bloating. My awful headaches are relieved, too. This medicine had a fine cleansing action and made my elimination more regular, and it seems to have cleansed away so much of the wastes and poisons that my neuritic pains have been helped greatly and my limbs are not stiff and painful like they were before. Van-Tage has given me blessed relief and I want to endorse it to others who suffer the way I did."

How the Van-Tage Helps Neuritic Pains

VAN-TAGE helps relieve neuritic pains which are due to contaminated system caused by sluggish acting organs, that is, Van-Tage acts as a cathartic, laxative, cholagogue and diuretic, and thus helps cleanse bowels, brings forth gas and bloat from stomach, assists Nature to flush sluggish kidneys, and stimulates the flow of liver bile, and, as a result of this cleansing action, it helps relieve neuritic pains. Get this medicine—TODAY!

VAN-TAGE is now being introduced to crowds daily here in Salem, at the Fred Meyer Toiletry & Remedy Shop 170 N. Liberty Street.
