Pinball Games Eclipse Looms

Moody Points out Every District Attorney Is Free to Act now

(Continued from page 1) in support of demurrers to the Moore and Arnold complaints to announce that "there is no need for further arguments. The injunc tions will be dissolved." Saying that he had issued the injunctions only with the understanding that appeals to the supreme court from Circuit Judge James W. Crawford's decree ruling pinball games lotteries would be perfected.

"I do not propose to have this court of equity used to prevent the secution of criminal offenses," Judge Lewelling declared.

In his arguments Moody asserted the pinball operators had enter ed the courts to stall for time. One-Armed Bandits' Moody's Description

"Operators of these mechanical pickpockets and one-armed bandits have been appealing to the courts, not to protect their property but to protect the illegal use properties," Moody

"Judges all over the state have issued injunctions to state enforcement of the laws against these devices in the belief that a supreme court determination of the legality of these machines would be secured in the Arnold and Campbell cases, and all the time Campbell and Arnold had no in-

tention of perfecting their appeals. "They did not dare risk a de- pan. cision by the supreme court. They knew what that decision would

Moody also charged that in the time-stalling tactics the gambling operators also "induced Governor Martin to unwitingly veto the emergency clause on the Martin anti-pinball bill enacted by the last legislature, permitting them to invoke the referendum against

"But we do not need the Martin or the Carney bills to prevent the operation of pin-ball machines. We have plenty of laws branding them as illegal if the authorities want to prosecute under them. It makes not one tota Gosslin Chief of of difference whether the Martin and Carney bills are defeated or

PORTLAND, Aug. 3.-(AP)-"Sleeper" fires in snags struck by lightning during recent storms constituted a danger in northwest forests today. Regional Forester C. J. Buck

warned that the blazes may break out without warning due to high temperature and low humidity, and cause extensive damage. Democrats Take Lead

In Multnomah County

PORTLAND, Aug. 3 .- (AP)-Democrats led republicans by 1026 in Multnomah county registrations today, James Gleason of the county clerk's office revealed. On August 1 there were 89,974 democrats and 88,948 republicans.

Hollywood Makes

"Magie Voice" Installed; First Use Is Tonight With "Hit Parade"

With the showing of "The Hit Parade" as the opening vehicle, Ray Stumbo, manager of the the public inauguration tonight of the revolutionary new RCA Victor sound reproducing system, the Magic Voice of the screen which has been installed in the last few days. Working in the early hours of

the morning so as not to inter-

fere with the regular showings,

RCA Victor sound engineers have installed and tested the elaborate new sound system and reported it ready. A new loudspeaker system which insures uniform distribution of all sound frequencies to every part of the theatre, has been put in place behind the screen. The sound waves penetrate tiny perforations in the screen, which are invisible from the auditorium and flow out from around the top and sides of the screen. In the projection booth a "High Fidelity" soundhead has been incorporated into the picture projecplification racks installed. A cable connects the sound projection apparatus with the loudnew "Magic Voice of the Screen."

Progress Rapid Technical progress in the sound motion picture art has been so rapid since the time when speech and music were added to the image on the screen, that sound reproducing systems of the earlier days are now hopelessly inadequate for recreating the finely recorded pictures of the present day. Whereas previous systems have been able to reproduce tones as low as 100

Hollywood goes RCA all the way!

cycles and as high as 6,000 cycles at the very best, the new RCA equipment can faithfully re-Changes in Sound produce tones as low as 60 cycles and as high as 10,000 cycles. The range af volume, too, has been improved so that the merest whisper of the wind in the grass, the thundering roar of a niagara of sound, or the great crescendo of a symphony orchestra may be reproduced

with equal fidelity. The development of the new Magic Voice of the screen sound Hollywood theatre, announces system comes as the culmination of years of persistent research. This same group of engineers was responsible for most of the major advances in the phonograph, broadcasting and in marine and transoceanic commuqui-

cations. With the installation of this remarkable new sound apparatus in the Hollywood theatre, motion picture fans can enjoy sound of the same high standards as that in the two finest theatres in the world, the Center theatre and Radio City Music hall, of Rockefeller Center, New York, for the sound systems are practically identical in operation and quality of reproduction.
